AUBURN ALUMNI ASSOCIATION

SEPTEMBER, 1970

AUBURN, ALABAMA

At All Three Degree Levels—

Summer Graduation Brings A Series Of 'Firsts'

HONORARY—Owen F. Wise '26, director of the Alabama Rehabilitation Service, received the Honorary Doctor of Humanities from Auburn at Summer graduation on Aug. 28. Looking on is Dean of Education Truman Pierce.

Charles Hiers New Art Head

Charles J. Hiers '57 has been appointed associate professor and head of the Auburn University Art Department. "We are pleased with the selection and appointment of Prof. Charles Hiers as head of the Art Department," said Dean E. Keith McPheeters of the School of Architecture and Fine Arts. "Prof. Hiers has an excellent balance of professional and academic experience in the fine arts and visual design area."

Prof. Hiers, a native of Charleston, S.C., has been a member of the Auburn faculty since 1965. He holds the bachelor's and master's of applied art from Auburn and has done further graduate study at Waseda University and Jochi University of Tokyo, Japan, and at the University of California at Berkeley.

While in Japan under a two-year private scholarship, Prof. Hiers did extensive research in the methods and materials, both traditional and contemporary, used for woodcut printing in Japan. He made several study trips to villages to learn the local craft industries such as Mashiko pottery making and Okamoto pa-

permaking. He also worked with some of Japan's leading graphic designers and architects.

At Auburn, Prof. Hiers has directed visual design students in numerous campus and community design projects, among them a flag for the City of Auburn, the road signs for War Eagle Highway and for Interstate 85, and covers for numerous University publications.

He has served as interpreter for Japanese visitors to the campus and as Rotary International foreign student advisor.

Professionally, Prof. Hiers has received numerous awards for his work in exhibitions throughout this country and in Japan. He was the recipient of the Harriet Murray Memorial Award by the Birmingham Museum of Art in recognition of an outstanding work of art for the year 1970. A painting exhibited in the Central South Exhibition in Nash-

At summer commencement on Aug. 28 Auburn awarded 1,008 degrees to students and an honorary Doctor of Humanities to Owen F. Wise '26, director of the Alabama Vocational Rehabilitation Service. Of the total, 351 were graduate degrees including 133 which were presented at the Air University in Montgomery through the master's program in business and political science. Among the 39 doctorates were the first Ph.D. earned in psychology, received by Irby Gaudet, and the first Ph.D. earned by a Negro, Alfred Powell, who received the doctorate in chemistry.

At the master's level, Larry Skelton of Corinth, Miss., earned the first master's of urban and regional planning and Maj. William A. Luther, Jr., received the first Master of Arts in political science.

The "firsts" extended to the bachelor's, too. Nancy Roach and David Yeager earned the first degrees in the new geology curriculum, and Ralph Williams completed the 5-year pharmacy curriculum to become the first Negro pharmacy graduate in Alabama.

Mr. Wise's honorary doctorate was his second honor from Auburn recognizing his outstanding service to rehabilitation programs in Alabama. He received the Sullivan Award from Auburn in 1956 because of his service to humanity. Mr. Wise has worked with rehabilitation programs for 43 years.

Honor Graduates

Among the seniors were 36 honor graduates. Two students, Teresa Diane Jones of Auburn and Mary Nell McCorquodale of Jackson, graduated with highest honor indicating near perfect records throughout their years at Auburn.

ville won the Purchase Award and another was awarded "Best in Show" at the 6th Annual Museum Gallery Exhibition in Macon, Ga.

HIERS . . . New Art Head

The 11 students graduated with high honor were Paul Vincent Mullek of Summerdale; John Pershing Anderson, Jr., of Anniston; Matt Jay Markey of Rumson, N.J.; Ronald Henry Bailey of Frisco City; Glenda Yvonne Paulk Cody of Union Springs; Donna Dickey of Chatom; Jean Carden Henry of Roanoke; Wy-lene McCollum of Waverly; Anne Marilyn Harris Robinson of Tarrant; Cary Eugene Abercrombie of Sterrett; and Donna Katherine Barr of Florence.

With Honor

Another 23 graduated with honor; James William Roby of Haleyville; Nathan Kerry Wood of Birmingham; Samuel Lee Chesnutt of Auburn; Mary Lou Street Clum of Auburn; Charles Fred Goodwin of Trussville; Mary Ann White Van Hartseveldt of Opelika; James McDonald Boles of Hartford; Kirby Lamar Hart, Jr., of Dothan; Rex Kell Rainer, Jr., of Auburn; William Dwayne Rush of Cragord; Michael David Krambs of San Rafael, Calif.; Slater Talmadge Parten of Auburn; Fred Anderson Malone of Gadsden; Hollace Lorraine Moore of Birmingham; Carolyn Jean Spears of Ft. Payne; Anthony Woodrow Hancock of Cullman; Bernard Thomas Kneeland, Jr., of Montgomery; Daniel Kenneth Hunt of Macon, Ga.; Jerome Harris Small of McGehee, Ark.; Walter Cobia Frampton, Jr., of Mt. Pleasant, S.C.; John Edgar Lofton of Montgomery; James Wayne Murrah of Scottsboro; and Patricia Simmons Shelton of Scottsboro.

Dr. Charles Weaver, Chancellor of the University of Tennessee at Knoxville and a former head of the Electrical Engineering Department at Auburn, made the commencement address. Dr. Weaver told his audience that, "The time has come when we must stand together, for if we

Prof. Hiers and Maltby Sykes, also of the Auburn faculty, presented a two-man exhibit recently at the Yoseido Galleries, Tokyo, Japan. Hiers has also exhibited work in Tokyo's International Competition, sponsored by the Japan Print Association.

One of Prof. Hiers' prints has been selected for reproduction by the International Graphic Arts Society. Others have been selected for traveling exhibit.

While studying in Japan, Prof. Hiers met and married the former Setsuko Morinaga. They have two children.

don't, our institutions as we now know them will most certainly fall.

"We can no longer afford the luxury of 'pecking orders,' group antagonisms, or other such divisive traditions. If we are to survive, we must settle our differences and compromise to reach a common position.

"Public attention is directed toward us as never before and public opinion is against us as perhaps never before."

Wise '26 Receives Honorary Ph.D.

Owen Frederick Wise, director of the Vocational Rehabilitation Service for Alabama, received the Doctor of Humanities on Aug. 28.

The honorary degree, presented by Auburn President Henry M. Philpott, is in recognition of the 43 years of service Mr. Wise has devoted to rehabilitation programs. Under his leadership, Alabama has consistently ranked in the top ten of the states in the number of persons rehabilitated. As a result, many states have studied Alabama's program as a model.

A native of Escambia County Mr. Wise attended high school in Monroeville and received the B.S. in education from Auburn in 1926. He taught for one year at Wedowee before beginning his career in the newly established Vocational Rehabilitation Service. He served as a district supervisor in Decatur and Birmingham until 1945, when he became associate state supervisor. He was named state director in 1948.

In addition to directing the programs of the Vocational Rehabilitation Service, he has given guidance to many related programs and organizations, developing joint working relationships with them.

Among the many programs instituted through Mr. Wise's leadership is the Counselor Training Program sponsored by VRA through colleges and universities over the county. Two of these programs are now being conducted by Auburn.

Mr. Wise has held numerous offices at the national level, including president of the National Rehabilitation Association. He has served as a member of the board of directors of the Alabama Mental Health Association, the Alabama Conference of Social Workers, and the Alabama Society for Crippled Children and Adults. He has also served as president of the National Council, State Agencies for the Blind.

Among the honors Mr. Wise has received is the Algernon (Continued on page 3)

PH.D. AT AUBURN—Alfred Powell of Montgomery became the first Negro awarded a Ph.D. in chemistry at Auburn when he received the degree on Aug. 28. Finishing his graduate work in the lab—the equipment pictured includes separatory funnels used for extractions and for separating non-miscible materials—Dr. Powell now works for Calgon Corp. in Pittsburgh as a research chemist in water resources pollution control.

In 'Exciting, Rewarding Field'—

Young Chemist AU's 1st Black Ph.D.

by Dru McGowen
Auburn University News Bureau

Alfred Powell, on the dean's list all through his undergraduate days, has another distinction to add to a long list of achievements. He is the first black man to earn the Ph.D. in chemistry at Auburn University and one of 28 students to do so since the program began. But for John Scott of Birmingham, he would be the first Negro in the state to conquer the difficult field of study. Scott received his Ph.D. in chemistry from the University of Alabama a week earlier.

Dr. Powell, a 27-year-old Montgomery native, has been engaged in "pure" research for the past three years: extracting theoretical information regarding the chemistry of a small group of compounds "of interest to us." As all such research, it will add to the body of scientific knowledge, and may, at some later date, be turned into application visible to man's eye. Applied, or problem-solving research would be impossible without "pure" research. But a step-by-step ex-

planation of Powell's exacting work would be difficult to describe.

Dr. Powell has planned to be a chemist since he was 15 years old and a student at St. Jude's in Montgomery. He received the B.S. degree from Alabama State College, majoring in chemistry, and worked on his master's degree at Auburn University. He skipped the degree, however, when he was admitted to the doctoral program in 1967, with Dr. G. M. Kosolapoff as his major professor.

In September Dr. Powell began work in the research division of Calgon Corporation in Pittsburgh. He will work on water soluble polymers to clean up industrial water as a part of the water resources pollution control.

According to Dr. Powell, chemists already have the know-how to treat pollutants in water. Matter cannot be destroyed, but it can be changed. And it is possible to add chemical substances to water which would change the harmful substances now present.

Why isn't it done? The young chemist, who believes the country is rapidly reaching a point of no return, believes that expenditures and enforcement are the political forces behind non-action.

In a democratic system, individuals are apt to leave "such things" to their representatives, even when they know the facts.

Dr. Powell is not a radical activist. In studying how things are put together in various combinations, and why they behave the way they do—he is simply aware that answers have been found, even if the technology for carrying out the projects are costly.

He is proudly defensive concerning chemistry. "I didn't want any publicity," he said, when accosted with the personal achievements to make any student proud; "but chemistry needs it. There aren't enough young

people going in to it. And it's an exciting, rewarding field which has, through the years, and can, in the future, offer solutions to many of the nation's major problems."

Most people visualize the chemist as a kind of mad scientist whose laboratory is full of explosions but Dr. Powell says: "In the eleven years I've worked with chemicals, I have never had an explosion."

Another popular impression is that chemists are not "people-oriented," that they work alone in musty laboratories, gleefully concocting destructive potions. "Everything we do," Dr. Powell says, "is used ultimately for the solving of human problems." For example, he points out research in the space program which leads to new discoveries in medicine and new methods of food preservation.

If it is economically unfeasible, or politically not expedient to remove pollutants from the air and water, why don't chemists construct a substance concerned men could drink to render them immune to danger?

In a way, they will, he says, through work in genetics and biochemistry. The day is coming, he predicts, when it will be commonplace for science to alter man's genes, designing people for special work and special conditions.

His colleagues feel that the earnest, enthusiastic, articulate, and informed Dr. Powell will make an excellent Alabama ambassador to the North, even though he turned down a teaching position in favor of industry.

He is not married and has one sister, Teressia. He is the son of Mrs. Eva Powell Jones and Frank Powell, Jr., both of Montgomery.

As a sophomore at Alabama State, Dr. Powell won the Presidential Citation for scholarship. As a junior he was named Outstanding Student in Chemistry. He was a National Science Foundation Undergraduate Resident Research Fellow during his senior year.

In 1964-65, Dr. Powell was listed in "Who's Who Among Students in American Colleges and Universities." At the same time, he was the recipient of the President's Award, highest honor bestowed by Alabama State.

At Auburn, where he was the first Negro research assistant, Dr. Powell is a member of Phi Lambda Epsilon, chemistry honorary, and is professionally affiliated with the American Chemistry Society and the American Association for the Advancement of Science—Chemistry Section. He was also named to the President's Advisory Committee on Auburn University's Programs for The Disadvantaged. He has been on a University Fellowship since beginning the doctoral program.

Dr. Powell's hobby—when he can find time for it—is swimming. He is also interested in the "politics of science," but doubts that a political career would ever be open to a scientist. "People still can't get over that explosion image," he says.

Gaudet Earns 1st Psychology Ph.D.

by Dru McGowen
Auburn University News Bureau

Can you teach an old dog new tricks? Specifically, if the "old dog" is a human being over 60? According to the research which earned Irby J. Gaudet the first Ph.D. in psychology to be awarded by Auburn University since the graduate program was instituted two years ago, the answer is: maybe—but it takes a lot longer.

Dr. Gaudet, who is 24, and one of the youngest students ever to receive a Ph.D. at Auburn, is quick to point out that his research findings deal in generalities, not specific individuals. In the cross-cultural area of his testing, "young" was defined as 17-23; "middle-aged" as 35-45; and "old" as anyone over 60. And all groups have their exceptions.

Generally speaking, there seems to be a loss in ability to perform certain learning tasks, Gaudet found. However, he points out, "learning hasn't really been pinned down yet. There could be a deficiency in the primary ability to learn, or other variables impossible to pinpoint in the testing measures used."

Another important factor is that older people may simply be too rigid and resistant to change, turning off anything that is new, particularly if it means "un-learning" some theory long held dear.

Although his dissertation deals strictly with specific tests regarding learning, Dr. Gaudet, through his involvement with the older group over the past two years, has more than an academic interest in aging.

"People are as old as other people tell them they are," he has discovered. One group of old people who live close together, he says, have a pattern of getting together every day to discuss their latest aches and pains. "By mid-afternoon, they need five ambulances." He also interviewed a couple, well into their

60's, who go dancing twice a week and would probably fight anyone who thought them old.

Although approximately ten per cent of the population of the United States consists of the aged, very little research has been done in this area, Dr. Gaudet finds. With life expectancy rising, more information in the field is needed and Gaudet's major professor, Dr. Charles Lair, hopes that some day Auburn may have a gerontology institute, with all disciplines adding to the research.

But meanwhile millions of old-

er people are pushed out of the mainstream when they are no longer considered useful. Dr. Gaudet suggests a Peace Corps to "bring older citizens back into the real world." Too many older people, he says, "hide their talents when there is no one to play the piano for or to show a painting to."

The habits of early life apparently carry over into older life, and it would appear that preventive "medicine" is needed early to help prepare people for aging. One of the problems of today's aging is the Protestant Work Ethic. Brought up to believe it is a "sin" to relax or play, many have developed no pleasurable pastimes for leisure living.

If a proposed 20-hour work

FIRST PH.D. IN PSYCHOLOGY AT AUBURN—Irby G. Gaudet of Thibodaux, La., received Auburn's first Ph.D. in psychology in commencement exercises at Auburn University Aug. 28. The doctoral program in psychology began two years ago. Dr. Gaudet, 24, discusses his dissertation on Learning Problems in Aging, with his major professor, Dr. Charles Lair.

week is accepted, Gaudet thinks aging may occur sooner, simply because a person is not employed to his full capacity and has no hobbies.

Older people could be used to do the "busy work" of church and community, he says. They could also have part-time jobs in various professional or industrial settings. Using them as "part-time grandparents" is a recent contemporary solution.

One of the answers to aging may be found in the life of the poet Robert Browning, who wrote: "Grow old along with me. The best is yet to be! The last of life for which the first was made."

Browning, who lived 77 years as a prolific writer, had, according to historians, a happy childhood

(Continued on page 3)

Architect Joins Faculty As Alumni Prof.

Architect John Hulon Bryant of Oklahoma City joined the Architecture faculty as Alumni Assistant Professor on Sept. 1. He is a licensed architect in Oklahoma and has been associated with the national firm of

Benham-Blair and Affiliates since 1968. Recently, he has been principally involved in research and design of a new Advanced Base Function Component System for the U.S. Navy, the largest architectural/medical project attempted by a single firm to date. In order to review data from almost 1,000 manufacturers in making evaluations for the ABFC System, Prof. Bryant instituted a computerized architectural information handling system which is believed to be the only system of its kind.

Prof. Bryant holds the Bachelor of Architecture degree from Oklahoma State University and the Masters of Architecture from the University of Illinois. He graduated first in his class at both institutions.

At Oklahoma State, Prof. Bryant received the University's Pursuit of Scholastic Excellence Scholarship, the American Institute of Architects National Scholastic Scholarship, and placed third alternate in national competition for the 1964 Paris Prize. He was vice president of Sigma Tau, national honorary for engineering, and is a member of Phi Kappa Phi national honorary.

He was appointed University Fellow in Architecture at the University of Illinois where he received the James W. White Memorial Award as the outstanding graduate student in architecture.

Prof. Bryant is a member of the American Institute of Architects and of the Cultural Development Committee, Oklahoma City Chamber of Commerce. He has served as a visiting critic and as a visiting lecturer at Oklahoma State University.

A native of Stillwater, Okla., Bryant is married to the former Linda Sue Carhart of Scottsdale, Ariz., and they have one child.

REVIEW—The summer issue of the *Southern Humanities Review* is now in print and ready for distribution. The *Review* is a scholarly publication of serious writings published regularly by Auburn University. The summer issue features a symposium on the role and function of religion

BRYANT . . . Alumni Prof.

SEPTEMBER, 1970

today. Drs. Norman Brittin and Eugene Current-Garcia edit the quarterly assisted by Dr. Barbara Mowat and Dr. Jack D. Durant, all of the Auburn English faculty. Representatives of colleges and universities throughout the south make up the editorial board. The *Review* is available by subscription at \$4 annually. Single copies are \$1.25. The address is 9088 Haley Center, Auburn University, Auburn, Ala. 36830.

OUTSTANDING—Auburn graduate student Jack V. Powell has been selected for inclusion in the 1970 volume of *Outstanding Young Men of America*. Mr. Powell, who was nominated for the award by the Knoxville College Alumni Association, is pursuing the Ed.D. at Auburn. He has done graduate work at several universities and holds the master's from Livingston State University. Prior to entering Auburn he taught psychology at Livingston State, after several years of teaching in high schools. His educational background also includes teaching experience and advanced study in English, math, and music.

INFIRMARY—Dr. William B. Turk '35, assistant director of the Infirmary, has been named interim director for Auburn's Student Health Services. Dr. Turk, with his associate Dr. Byron Knapp, will assume responsibilities to provide continuing health services for the students following the retirement of Dr. Morgan Brown on Aug. 31. At the same time, President Harry M. Philpott announced that a study by Dr. Turk, assisted by Dr.

Wise Honored

(Continued from page 1)

Sydney Sullivan Award by Auburn University in 1956 in recognition for service to humanity; the H. B. Cummings Award in 1964 for service to the disabled in Alabama and Region IV, the Outstanding Service Award by the Alabama Society for Crippled Children and Adults in 1964, The Outstanding Service Award by Civitan International of Alabama in 1965, and the W. F. Faulkes Award by the National Rehabilitation Association.

He was the fifth person to receive the Bronze Award from the Alabama Society for Crippled Children and Adults. He also received the award for Outstanding Service in Stimulating Better Citizenship from the Civitan Foundation for Mentally Retarded and Handicapped.

Wise was married to the late Louise Jones of Paint Rock. Their children are Mrs. Ruth Mary Kirkland, married to an Air Force major, and Laurie, now teaching exceptional children at an Army base in Germany.

Knapp and the Student Health Committee (composed of four professors and two students) would evaluate the health services of the University and make recommendations for change. Such an evaluation will consider health information and education for students as well as the treatment of usual illnesses and emergencies. Dr. Turk graduated from Auburn in 1935. He received the doctor of medicine from Louisiana State University in 1940. He had a private practice for 20 years before joining the Auburn faculty in 1965.

CHILDREN'S THEATRE—For the third successive year, Auburn's Childrens Theatre will receive support through the Alabama Council on the Arts & Humanities. The grant will help pay expenses of carrying children's productions to outlying areas of the state. Prof. Leo A. Comeau, director of the Children's Theatre, says two productions, "The Mirror Man" and "The Lantern" will tour areas where the children are not exposed to theatre. Both plays involve some casts with minor costuming and scenery. They are written to be produced in limited areas such as cafeterias or play areas, with the children sitting on the floor which can be part of the stage, actively involved with actors and plot. Each play will tour three weeks bringing the

Gaudet Receives Psychology Ph.D.

(Continued from page 2)

in a prosperous and well-ordered household. He enjoyed the careful training of affectionate and cultured parents who allowed him to develop his literary talents by publishing his first volume of verse when he was 12. And his marriage to Elizabeth Barrett was satisfying and happy.

Dr. Gaudet joined the faculty of the Department of Psychology at the University of Southeastern Louisiana in Lafayette on Sept. 8 as an assistant professor. He expects to continue to be involved in problems of the aging through groups there.

"Now that we know a lot about rats," he smiles, "psychologists are using the findings of controlled settings to provide services for the communities."

Born in Houma, La., Dr. Gaudet majored in pre-med at F. T. Nicholls State College in Thibodaux and received the B.A. degree from Louisiana State University in 1966. He received the M.S. in Psychology from Auburn in 1968 and was awarded the doctorate in commencement exercises on Aug. 28.

Already published in a number of technical journals, Gaudet is a member of Phi Kappa Phi, Psi Chi, the Alabama Psychological Association, and the Southeastern Psychological Association.

He is married to the former Mary Marcia Gendron of Edgard, La., who received her M.S. from Auburn in 1968.

magic of the theatre to 12,000 Alabama children.

ENVIRONMENT—Auburn will sponsor a conference on improving the quality of Alabama's environment Sept. 30 through Oct. 1. According to John Cain, director of Auburn's Engineering Extramural Development, the conference "as far as we can determine, is the first in the U.S. where most of the interests in our environment will be together to speak to each other in understandable terms." Walter Hamilton, deputy assistant secretary of the U.S. Department of Commerce and Carl Klein, assistant secretary in water resources programs of the U.S. Department of Interior will head federal consultants. In addition, mayors, geologists, state health department experts, conservationists, university professors, municipal officials, and industrial representatives will have part in the two-day program.

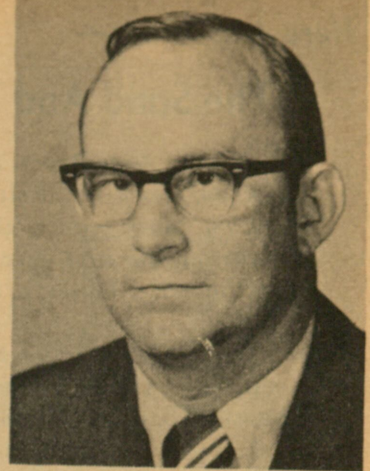

CONCERT—Auburn's concert series will open its season on Nov. 9 with "Zorba," the New York musical hit. The Don Coasack Choir and Dancers will appear Nov. 23, followed by the Preservation Hall Jazz Band from New Orleans on Feb. 1, the Detroit Symphony on Feb. 16, and Ferrante & Teicher, pianists, on April 5. Season and individual tickets are available to the general public. All of the concerts will be held in Memorial Coliseum and tickets will be available at the door. Music lovers in Auburn and the area can attend additional presentations through the Auburn Chamber Music Society. Opening the new season will be the Quartetto di Roma on Nov. 3, followed by Paul Doktor on the viola on Jan. 19, The New Cleveland Quartet on Feb. 9, and the Beaux Arts Trio of New York on Feb. 23.

LECTURES—David Riesman, Harvard sociologist and author, will be the first speaker in Auburn's General Lecture Series for fall quarter. Dr. Riesman, a Franklin Lecturer, will be on campus Oct. 12-14. C. Vann Woodward, a Yale historian will be here Oct. 15 and 16 as the Ralph B. Draughon Lecturer in Southern History. Sen. John Tower, a Republican from Texas, will speak on Nov. 10. Prof. George Hammond, scientist-chemist at Cal Tech, will complete the fall series on a date to be set later. Each of the speakers will present a general lecture and meet with classes to discuss special topics.

Prof. Nist Named Fulbright Lecturer

Dr. John A. Nist, Professor of English at Auburn University, will be a Fulbright Lecturer during the next year at the American Studies Center of the University of Rome, Italy.

At the University of Rome, Dr. Nist will direct ten teachers of English and will initiate and di-

WATKINS . . . New Dean

Watkins Named Assistant Dean

Dr. J. Foster Watkins has been named assistant dean of the School of Education and will also carry a joint appointment as Assistant Professor in the Dept. of Educational Administration and Supervision.

As assistant dean for instruction and program development, Dr. Watkins will assume the duties carried by Dr. Robert L. Saunders who left for Memphis State to be dean of the School of Education.

The 33-year-old native of Columbus, Ga., received the bachelor of science degree in industrial engineering from Georgia Institute of Technology, where he played guard and linebacker for the Yellow Jackets. He was captain of the '58 team.

Watkins received the M.Ed. and Ed.D. from Auburn University, with a major in educational administration and supervision and a minor in guidance and educational research.

Since March, 1969, Dr. Watkins has been employed at Auburn on a half-time basis with the School of Education and the Southeastern Education Laboratory, as an assistant professor with teaching duties and as associate director for the Auburn Center for Problems Occasioned by Desegregation.

Prior to coming to Auburn, he worked for two and a half years as a field representative for the Southeastern Education Laboratory. In 1966-67 he was Director of Research for a 6-State Study of the Curriculum Leadership Role of State Departments of Education, in Atlanta, Ga.

rect their research. His work will center on linguistics, with special emphasis on teaching English as a foreign language.

At the same time, Dr. Nist is working toward completion of a final editing draft of *Linguistics of English*, scheduled to be published by St. Martin's Press in February, 1972. He will continue his current research on socially disadvantaged English.

Dr. Nist is author of numerous publications. His major books include *A Structural History of English*, 1966, and *Speaking into Writing*, 1969, both published by St. Martin's Press. His *Style in English*, was cited by the National Council of Teachers of English and the Educational Resources Information Center of Washington, D.C.

The Sand And The Wind

by Jerry Roden, Jr., '46

*Mock on, mock on, Voltaire, Rousseau:
Mock on, mock on: 'tis all in vain!
You throw the sand against the wind,
And the wind blows it back again.*

—William Blake

Somewhere beyond the clouds, Voltaire and Rousseau may, or may not, be looking down and remembering back to their turbulent century.

Roden

And if they are, they must, with the wisdom of aftersight, rue the harvest of their rationalism, cynicism, and madness.

And they must wonder too at the trenchant insight of that "madman," William Blake, that untutored artist, who saw so much more clearly than they—and we—the folly of all their thinking, scheming, and systematizing.

Of course, Blake built his own grand system too—to keep from being enslaved by those of other men. But if he ever really completed it, he was wise enough to record it in undecipherable hieroglyphs—Don't let those who pretend to have fathomed his secret fool you; Blake knew better than to plan seriously a mundane paradise.

Blake's wisdom was of the earth and of the human heart, and it transcended the earth to the utmost expanses of heaven and descended to plumb the farthest reaches of hell and lifted the human soul on the airy wings of a bird to look before and after and deep, deep within.

Blake presents us but one great vision clearly, and that is a wonderful glimpse of the beauty, mystery, and terror of it all: the heretofore, the here and now, the hereafter; the above, the here, the below—all beautifully synthesized into the eternal reality of the forever present to the liberated soul.

But he gave us no formula for liberation, because there is none, because each man must find his own way to the secret place, and because philosophers, social planners, revolutionaries, and plain do-gooders can't really help at all, but at best only cause confusion and at worst induce new incursions of chaos.

So, Voltaire and Rousseau must also be wondering now, because the speculative habit is hard to shake even in the hereafter, how long it is going to take the human race to learn from its mistakes and particularly theirs. But Blake, who is certainly up there somewhere and down here too and perhaps elsewhere also, stretches out an inviting hand to put us on the pathway away from dissension, greed, and the shackles of systems.

That much he offers, but beyond that initial point each of us must travel alone, for to each is given the non-transferrable privilege of ultimate discovery.

Auburn Alumnews September, 1970

Volume XXV — Number 6 General Edition

President: James M. Brown '46; Executive Secretary: Joseph B. Sarver, Jr., '37; Associate Secretary: George (Buck) Bradberry; Executive Committee: Ralph Beauchamp '47, Cecil Yarbrough '42, Morris Savage '58, A. D. Holmes '38, Duncan Liles, Jr., '43, H. T. Killingsworth '19; and J. Gilmer Blackburn '50, ex-officio.

THE AUBURN ALUMNEWS is published eight times a year at six week intervals, September-July, by the Auburn Alumni Association, Auburn University, Auburn, Ala. (36830). Kaye Lovvorn '64 is editor; Ruth Whelchel '70, assistant editor. The Auburn Alumnews was entered as second class matter February 4, 1946, at the Post Office, Auburn, Ala., under Act of Aug. 24, 1912.

Behind The Headlines—

Familiar Face Is Missing

Alumni returning for reunions and football games this fall will miss a familiar smile in the Alumni Office. Mrs. Martha Bennett vacated the front desk on Aug. 31. She had been with the Alumni Association since the late Forties and had worked in the University Registrar's office before coming to the Alumni Office.

"Behind the Headlines" seems to be a particularly appropriate place for *The Alumnews* to pay tribute to Mrs. Bennett, yet few outside the office may realize how fitting it is. For years Mrs. Bennett's ability to remember dozens of alumni faces and names from year-to-year, has been as delightful to alumni so greeted as it has been amazing to more recent staffers. But even more alumni have been surprised to find news of themselves in the alumnalities gleaned from Mrs. Bennett's careful reading of the state's top newspapers.

Working in the Alumni Office often requires the sleuthing abilities of a detective. Duplications of names of alumni frequently appear and often in the same class, and sometimes in the same town. Another trait that complicates the procedure is the Auburn man's fondness for nicknames. Take a common last name, add a nickname, leave off the class year and put him in a large town, and you have a frustrating puzzle worthy of Special Agent 007.

But Mrs. Bennett has a background knowledge of Auburn and Auburn people that could help her spot an alumnus when there seems to be no clues. Sometimes it seems to this stumped editor that Mrs. Bennett's ability to rout out the right alumnus from a list of names is intuitive, but once she had the intuition she could back it up with a check in the right place in the alumni files.

Most of the materials that have made up the alumnalities section of the *Alumnews* for the past 20 years have passed through Mrs. Bennett's hands, although in recent years with the growth of alumni and the consequent growth of the volume of materials coming in, other members of the alumni staff have helped her with the letter-writing, checking, and filing.

As did my predecessors in the editor's chair, I have found Mrs. Bennett a living reference source and longed to have her name-remembering ability monthly when I'm puzzling over galley proofs.

Although she is no longer in the Alumni Office, Mrs. Bennett won't be completely breaking her ties with us. Her son, Godfrey, is an alumnus in the class of '52 and she will continue to make her home in Auburn where she can drop by to see us between her visits to see her grandchildren in Jacksonville, Fla.

Androgogy Is An Ugly Word

by Kaye Lovvorn '64

Andragogy is an ugly word—it sounds like an old goat being put out to pasture. But the concept behind andragogy isn't ugly. Better known—for obvious reasons—as adult education, andragogy is the art of teaching adults.

The concept of adult education is broad and its history long—although mankind only recently stopped to give it a name and consider its implications. Adult education may be graduate study or literacy training, but it goes on wherever an adult is learning: in a college classroom, a ceramics lab, the YMCA, or in somebody's living room.

The adult who feels the need for more education often comes to it as to a hurdle on the road to somewhere else. He may approach it with dread as the scene of his past failure, or he may come to it with a new apprehension because he is no longer young and quick and thus fears failure. Or he may come to it with hope, as the longed-for second chance.

And his hopes and fears and his purpose for education all need to be considered.

In the past the emphasis in education has been on the child. And whether we want to admit it or not, it hasn't been overly successful.

The teaching of the adult as opposed to the child has its advantages and disadvantages. While the adult is more likely to sit still and concentrate, he is not apt to be more patient with the process of learning itself. He knows what he wants from his studies and he does not want to be postponed or directed there meanderingly. He wants to learn tonight and apply tomorrow.

The child, according to the tabula rasa theory, is a blank slate, ready to be written upon. The adult, however, is already covered with the writing of who he is, what he knows, where he has been, and where he hopes to go. Whatever knowledge he acquires in adulthood does not go on a clean slate—instead it must fill in the holes and gaps, and in some cases, contradict the learning already there.

Instead of being fresh, impressionable, and malleable as is the child beginning his education, the adult is weary, cynical, and rigid. Not open and free like the child, the adult is inhibited and reined in by his past experiences in education. He may well be distrustful or apathetic about the entire process.

Outside the classroom, the adult runs his own life. Consequently, he isn't amenable to walking into the class and becoming a child again. If he is treated like a child, he becomes resentful and does not learn. He wants to participate in class not as a receptive vessel, but as a human being taking part in life.

He wants the class unregimented so that he can bring his knowledge gained in life into the situation. He may not know much about mathematics, but he may be an expert on gardening. He resents being talked down to and objects to the depersonalization in learning situations as much as he does in other situations.

Instead of having his learning judged by a grade, the adult learner is really the judge, determining whether or not a class helps him meet his goals.

Coming to school as children we are excited about learning—"why?" and "how?" are our most frequent words. Once we reach school, however, our earliest and most lasting lesson is that learning is a burden to be endured rather than a joy to be relished.

By the time we reach adulthood, all the enthusiasm has been worn away and we have become wary of learning. Sooner or later almost all of us become drop-outs. To be sure, a few

THE AUBURN ALUMNEWS

An Open Letter Of Thanks From Archives

The Department of Archives wishes to thank those persons who have written or telephoned the Alumni Office or the Archives to identify photographs. Also, we would like to thank publicly Auburn alumni and friends who have voluntarily mailed the Archives old pictures.

The picture collection still has gaps in it, and we hope that many photographs of the Auburn scene may be in your attics, trunks, chests, or closets, if some overly-eager housecleaner has not thrown them away. Actually, we have few pictures reflecting the 1920's and 1930's, and except for one WWI vintage album, we have a very slim collection from 1908 or 1910 up to 1920. Please have a look, and send them to us, properly identified if possible, so they can be preserved, and we can have a more pictorial memory of Auburn for all time.

(BEHIND HEADLINES)

De-Generation Gap

(Continued from page 4)

knowledge that the modern student has at last gotten where the younger generation has been headed for 3,000 years—to the dogs. Any man-on-the-street can tell you that these long-haired children waste their parents' money on pot and weird clothes, conserve water by not bathing, and sit-in instead of doing their homework. Look at them and it's obvious that they no longer have the crew-cuts nor the values of the class of '55—or even of '64. Talk to them and you'll argue broader topics than grades, dates, and parties.

We won't pretend to tell you what makes the present Auburn student tick, but we're willing to bet that it ain't what you think. We do invite you to meet some of them on page 18. They belong to a special group that President Philpott mentioned last fall at the Trustee's meeting—the 45 per cent of Auburn students who work.

NEPOTISM — Of a sort. The two young men we write about in the feature on the Mark Twain (see page 9) were the inspiration for the article on working students mentioned above. However, our ideas flow much faster than our features and now that we have the first part of the working class feature ready for press, Richard and Steve are no longer here. Instead they are rising young entertainers in Atlanta who make this appearance here under other auspices. Richard McLean is an "on-leave" member of the *Alumnews* staff whose by-line is conspicuously absent from the sports pages. As Richard's singing partner and a frequent visitor to the office, Steve Hudson '70 is an adopted staff member.

PERSONAL INTEREST — If Ruth Whelchel's feature on adult education sounds as if she has a personal interest in the subject, it should. That 39-year-old housewife named Ruth in her article who went back to college to finish a degree after 20 years

LONG, LONG AGO—Another of the Archives pictures which needs identifying is this class picture. The only clues that Mrs. Carolyn

Dixon of Archives has about the picture is that, judging by the uniforms, the picture was made prior to 1898.

Only Yesterday—

A Look At Auburn Of The 20's 30's & 40's

by Carl Warren '71

50 years ago:

Dr. Spright Dowell is the new president of the Alabama Polytechnic Institute. Dr. Dowell replaces Dr. Thach, who has been named president emeritus.

A military barrack has been converted into a dormitory for men. The dormitory will house about 200 men and will feature "spendid and adequate baths" and a dining room capable of accommodating 150 at a time.

The main building has been renovated from the cellar to the big clock.

The football schedule includes a game with Camp Benning to be played in Auburn. Alabama does not appear on the schedule.

A new plan of registration will eliminate much of the former confusion in arranging classes and will make enrollment much simpler for both professor and

student. (Details not given.)

The senior class has adopted resolutions including: No restriction shall be placed on going to

Opelika if the trip does not interfere with college duties; all underclassmen shall get a pass

(Continued on page 7)

Letters to the Editor

Co-eds 'Chronological Shackles'

Ft. Geo. G. Meade, Md.

August 31, 1970

Editor, *The Alumnews*:

Having just read an article in *The Alumnews* regarding coed curfews, I continue to be appalled by the chronological shackles with which Auburn coeds must live.

For comparison, I consulted with several co-workers who had attended various institutions, namely: Purdue, Penn State, Southern Illinois, Central Michigan, Maryland, and Appalachian State. In each case all coeds with sophomore standing or above are allowed to reside in apartments provided they maintain passing grades. At SIU, Maryland, and Purdue, there are no curfews for upperclass women even during the week. Central Michigan permits visitation in women's dorms until 11:30 p.m. six nights a week. Among this group, Penn State features coed dormitories. A more extensive survey would no doubt reveal more of the same.

I would venture to state that the same parents who advocate strict curfews for their daughters would be justifiably insulted if told their offspring were less mature and responsible than girls of the same age from Illinois or Maryland.

The existing regulations seem to have two objectives in mind:

enforced chastity and study by coercion, both of which are closely akin to making the horse drink the proverbial water. Actually, they serve to compromise the integrity of many women by forcing them to seek means of circumventing the cumbersome regulations.

It is hoped these anachronous guidelines will soon be revamped and the Auburn coed released from her 76-year immurement.

Yours very truly,
Jud Johnston '68

'More Pleasing To Sense of Fairness'

Elkins Park, Pa.

Editor:

I am pleased to have received *The Alumnews* and to have learned so much about the great changes and progress at Auburn.

Greater integration is pleasing to my feeling of fairness: more women, more out-of-staters, more international students and more—but not enough—black students. This statement comes from a member of the silent non-militant, way-past-30-housewife-group.

Very truly yours,
Libby Israel Caplan '33
(Mrs. Bernerd Caplan)

Andragogy

(Continued from page 4)

unusual people remain avid learners, letting their curiosity range in the quest to know and understand. Most of us, however, settle for a diploma or a degree and put away our interest in learning as a childish thing.

We are not interested in—or even aware of—learning to broaden our interests, of learning for the joy of discovering something new in the world—or at least new to us—or of learning as a link to bring together isolated information for a new understanding of our irrational selves, our incomprehensible fellow creatures, and our maddening world.

However, should the necessities of adult education be applied to education in general there might be hope of releasing again for many of us the joy of learning and the resulting ability to teach ourselves, which is after all the ultimate goal of education, be it for the child or for the adult.

Dr. Dowell and Auburn churchmen have met and decided that church attendance will be voluntary.

Fifteen senior men have been selected to keep spectators in the bleachers during games at Drake Field.

has the last name of Whelchel. But Ruth has a professional interest in adult education as well: she was one of the participants in the first institute held here last summer for adult educators, and she teaches in the Adult Basic Education program in Auburn. Shortly before she graduated from Auburn in June, (as a member of Auburn's highest honorary) Ruth acquired her first job—on the *Alumnews*. By her own description she is a part-time writer and full-time, usually overtime, housewife whose life centers around her kitchen table—and the people who gather there: traveling husband Bill, daughter Trina, and sons Ricky and George.

Adult Education: New Ideas, New Methods Make New People

by Ruth Wheelchel '70

Dr. Harry Frank pauses in his lecture on "The Nature of Adult Education" to answer a question from a junior college instructor. "But how are we to rid people of this belief that they are too old to learn?", he asks. Dr. Frank replies, and when he finishes a half-dozen hands are raised around the large circular table. The exchange of ideas begins. Challenging and informative, lively and enthusiastic—this is adult education at Auburn University.

In this class of 26 students, 22 are adult educators, experienced and knowledgeable in their areas

of specialization. They come from all over the state to participate in Auburn's new graduate and undergraduate program in adult education. One finds a girl in home economics soon to be come a home demonstration agent; a vocational teacher of welding; an adult basic education teacher; a management trainee with an airline, and a supervisor of distributive education, who travels

over the state helping teachers set up short-term courses for business men. These students have one thing in common. Though the nature of what they teach is different, they are all actively involved in teaching adults, whether formally or informally.

850,000 To Teach

This opportunity to learn more about adults and the way they learn came into being last summer. The perseverance of educational leaders at Auburn with support and assistance from the State Department of Education, the Southern Regional Educational Board, and the Federal Government made possible the only degree program within the state. In the summer of 1969, for the first time, Auburn offered adult education courses plus a two-week institute on "Problems of Teaching the Disadvantaged Adult." (Previously, Auburn had offered a few courses pertaining to adults in the vocational department.) The institute classes lasted eight hours a day with an enrollment of 52 persons under the capable guidance of Dr. R. W. Montgomery, head professor of Vocational, Technical, and Practical Arts Education (VED); Mr. Herman Pruett, associate professor of VED; and Dr. Harry Frank and Mr. Bill Clayton, assistant professors of adult education. Those attending the institute became more aware of problems of the under-educated, and learned how to more effectively teach Alabama's 850,000 disadvantaged.

Program Growing

Now, a year later, the adult program is still growing. In July the Department of Vocational, Technical, and Practical Arts Education became the Department of Vocational and Adult Education. More new courses are in the curriculum, and the staff continues to work closely with other educational agencies and institutions. A primary area of work is the Adult Basic Education (ABE) Centers which have expanded from 54 local school systems in 1965 to 82 local school systems and three prison units in 1969. The enrollment has increased from 8,000 to 12,000. Most of the grants in recent months have been in the ABE

field, and Dr. Harry Frank, who came to Auburn from Oklahoma State University, spends most of his time working with these programs.

The Adult Education Act of 1966 implemented learning for those too long neglected, the more than 20 million functional illiterates* in our society. Now all 50 states have ABE programs which assist "the people of the State who are recognized as educationally disadvantaged to obtain or continue, voluntarily and without cost, their education . . . The program concentrates primarily on providing a basic education conducive to profitable occupational competency and to productive and responsible citizenship."

Some Illiterate

Some enter classes unable to read or write, others need help only in certain areas. The ABE student is not part of a class as such, but progresses through the three levels at his own rate. After passing the General Educational Equivalency Test he can go on to vocational or trade school or even on to college. Adult Basic Education, which this fall changed its name to Public Adult Education, gives a second chance to those who desire it.

In working with ABE, Dr. Frank teaches not only on campus, but also has evening classes at junior colleges and other educational centers. He travels extensively all over the state, holding one-week and one-day workshops, conducting seminars, and acting as a consultant wherever he is needed. In recent months he (1) helped train volunteers from the Church Women United of Alabama in Huntsville and Mobile to recruit and to work as teacher's and clerical aids in ABE; (2) assisted in ABE training institutes at Alabama State and Alabama A&M; and (3) taught municipal supervisors at Florence and Auburn-Opelika how to improve the learning of employees.

Pruett 'Daddy'

Credit for laying the groundwork for the ABE program goes to Professor Herman T. Pruett, a long-time member of the department. Dean of Education Truman M. Pierce commented that Prof. Pruett's continual emphasis on the need for adult learning and his constant and consistent work over the years was instrumental in getting the Auburn program underway. Dr. Frank refers to him as the "Daddy of Adult Education" in Alabama, stating, "When I came here two years ago Prof. Pruett had already lined up support and done extensive preparation on curriculum and materials."

Herman Pruett has never believed learning automatically stops at a certain age. He has taught adults for many years.

His first interest and experience in teaching adults came at the beginning of his career when he taught in a one-teacher school in Cullman County. A group of parents asked him to teach them how to grow better cotton and corn. "They knew I grew up in another section of the county where the farmers grew good crops, so I volunteered to teach them what I knew about farming." For the next few years he had day classes for the children and night classes for the parents. He received no pay for the night classes. (Prof. Pruett says, "When I leave here,"—he has been at Auburn for 21 years—"I am going back up there to spend the rest of my days working with rural people and their organizations. Free of charge, of course. That's the way I started, and that's how I'm going to finish up.")

After five years of teaching in Cullman County, advancing from his one teacher school to the principalship of a junior high school, Prof. Pruett decided to enroll at Auburn in agricultural education. When he graduated he went to Bay Minette to teach. His first year there he organized a "community club," dealing with problems of farmers and farm families, in rural Lottie, about 19 miles from Bay Minette. (Visiting there two years ago, he discovered that even after 30 years charter members are still active in the group.)

Back in Cullman

Prof. Pruett's next work with adult programs came several years later back in Cullman County where he was assistant superintendent in charge of adult programs in the county, including G.I. programs after World War II. At one time 52 teachers taught 996 adult students. After a year as principal of the then new Cullman High School he came to Auburn. Teaching graduate and undergraduate courses here, and at various agricultural experiment stations, he has also worked since 1965 with the State Department of Education and other organizations promoting adult education.

His contributions are many and varied. His 30 monographs (scholarly pamphlets on a specific subject), are a decided asset

(Continued on page 7)

Growth Of Adult Education

Centuries ago opportunities for educational advancement were limited and expensive. In New York State in 1661, evening schools were private, profit-making institutions, offering both vocational and cultural curriculums. In 1823 Massachusetts was the first to appropriate money, \$75.00, to partially support an evening school. During this early period, cities assumed financial responsibility to support adult education, until 1893, when California provided legislation for both day and evening classes. In some states, college and university extension divisions developed and carried out adult programs when state departments of education failed to do so. Moving slowly through the years, the movement gained in impetus the last two decades. It is estimated that six million adults were engaged in some form of continuing education in 1968, as compared to one million in 1924. Many factors contributed to this increase.

Since World War II changes have taken place at an almost dizzying rate. The atomic bomb, exploration of space, and other new developments in science, medicine and technology have given the world much to look forward to, but also much to adapt to. More aware of what is happening throughout the world, we are all directly affected by the population explosion; pollution of our natural resources; our nation's economy, and conflicting ideologies. Life now is predominantly urban, and problems we encounter have no simple solutions.

It is not enough anymore to have a strong back and a pioneering spirit when there are few new frontiers left to develop and expand. Man must live within existing conditions and needs adequate food, clothing, shelter, and medical care. Today, in order to live decently, a high school education plus a marketable skill is required.

Jobs that are vital to industry now may not be so in the future. Automation restructures many organizations, and in order to avoid being phased out the individual must retrain for openings brought about by new inventions and developments. Our population is mobile. People congregate in areas offering the greatest job opportunities. They all have to be trained and retrained.

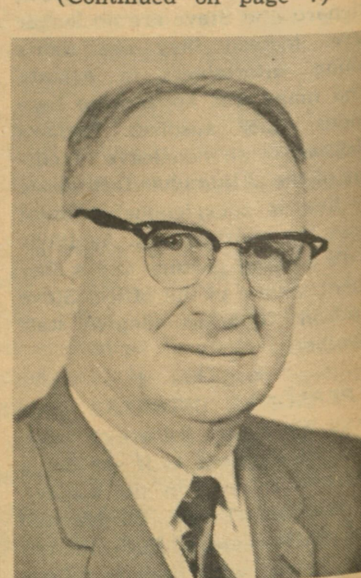

Extra leisure time finds many persons, not in front of a TV set, but joining a Great Books discussion group, taking an occasional college course, or learning the art of photography. Modern appliances eliminate much of former household dudgey, making it possible for many women to pursue other interests and hold part-time jobs. More women over 40 are entering the labor force each year. Since certain skills are necessary to perform most work satisfactorily, some organizations offer their own training programs. A woman interested in becoming temporary office help may need to brush up on office skills, and will attend a vocational school for a refresher course.

A higher standard of living and new discoveries in science and medicine have increased man's life expectancy. Older people are growing in number, and compulsory retirement at 65 wastes years of knowledge and ability this older group could provide. Awareness of this waste has made communities and states explore new ways to use these discarded abilities. Many areas are finding use for these talents, and the older person can still look forward to living instead of dying.

All the adult education programs are designed for man's progress. He learns new ideas, new methods, and is exposed to new people. As he responds, there is very little danger he will become static in a constantly changing world.

DR. HARRY FRANK

PROF. HERMAN PRUETT

THE AUBURN ALUMNEWS

*The inability to read a news paper and to write a business letter.

Adult Education: New Ideas

(Continued from page 6)

for students. One is a compilation of materials on "the physiological and psychological changes in aging" designed to give teachers a better understanding of the mental and physical changes that come with age. As one grows older, hearing is less acute, and after 40, there is a sharp vision loss. Teachers of adults must talk louder and write larger. Grey hair, wrinkled skin, and diminishing strength are frustrating factors that influence how an adult learns.

Confidence Shrinks

With his physical abilities declining, the adult feels his intellectual abilities have also. Therefore, he is less confident as a learner and more sensitive to failure. A very important factor in teaching adults successfully is giving the learner confidence in his own ability.

Slower Pace

Research proves age is no handicap to learning. The older person does go at a slower pace, but though speed is slower, accuracy increases. The sociologist Donahue says, "Exercise of the mind seems to retard deterioration of intellectual processes. If minds are kept active through exercise of intellectual and creative imagination, outstanding achievements in fields not involving physical powers is possible in the seventh and perhaps even the eighth decade." By the middle years, attitudes are more stable, and interests, though fewer in number, are pursued in greater depth.

Same Methods Fail

Knowledge of adults as learners is accumulating rapidly. Educators today stress that basic differences do exist between the older and younger student, and the same methods or approach cannot be used for both.

Malcolm Knowles in *The Modern Practice of Adult Education* says, "The main reason why adult education has not achieved the impact on our civilization of which it is capable is that most teachers of adults have only known how to teach adults as if they were children." Andragogy, the art and science of helping adults to learn, is relatively new, though adult education started about three centuries ago.

Practical Interest

The adult learner is different. He enters into any learning situation because he wants to; he is no captive audience. With years of living experience behind him, he is generally self-directive and has an already well-formed identity. Usually a wage earner with a family, he seeks the answers to his problems now. His interest is practical rather than theoretical, and he learns best what has personal meaning to him.

An adult returns to the classroom for many reasons. Mr. Smith, a personnel manager, attends evening classes for his own improvement. Courses in speed reading and psychology will benefit him personally. Mr. Jones needs to know more

about chemistry for job advancement, so he goes two nights a week to classes at the local high school. Mrs. Smith studies French at the YWCA in preparation for her summer trip to France. John is a high school drop-out, and now at 22 realizes his desperate need for a high school diploma. Ruth has returned to college after 20 years of being a housewife. With almost-grown children, she is aware she will have many productive years ahead to work part-time. Mrs. Mary B. is a widow, and lonely. With a real need to do something worthwhile with her time, she enrolled in a nurse's aid class, and does volunteer work three days a week in the children's ward at the hospital.

The adult student has a definite purpose in resuming his education, and is able to find what he is looking for at one of the many continuing education programs in the U.S. Agencies whose function is primarily educational are: the Cooperative Extension Service; schools and colleges, including vocational-technical schools; correspondence schools and the public library.

Can Learn Anywhere

Continuing education is not restricted to the classroom. A farmer needing the best fertilizer for his soil calls on his Extension agent for testing and advice. A welfare recipient asks the social worker to suggest ways to more effectively budget each week. A man wanting to know more about gems and minerals goes to the public librarian who helps him select the proper books for his study.

Education is a coordinate function for religious institutions, vocational rehabilitation centers, YMCA, League of Women Voters, and penal institutions. Education assumes a subordinate function in business and industry; in labor unions; in AA; and in the Armed Forces.

Auburn University, using all its resources, provides varying programs of continuing education through Cooperative Extension Service; Engineering Extension; short courses for business and professional men, educators, special women's groups, and parents; and through field laboratory courses. Now, the adult education program will bring Auburn's influence to hundreds of other Alabamians who would never directly feel Auburn's influence, making even more viable Dr. Philpott's inaugural statement: "The most remote hamlet of this state will be considered as a part of the campus of Auburn University."

Keystone Alumni

Alumni members of "Keystones" and "Builders Guild" are invited to an open house on October 24 (Homecoming) at Biggin Hall. From 10 until game time, the present Keystones will be serving coffee and they welcome all former members to come by. The open house will continue after the game.

TRIPLE HONORS AND COMMISSIONS—Bernard Kneeland, David Dennis, and Walter Frampton had the distinction of being named Distinguished Naval Graduates and Naval Honor Graduates, as well as receiving baccalaureate degrees in summer commissioning and commencement exercises. Kneeland, from Montgomery, will continue his studies in graduate school at Auburn, concentrating on aerospace engineering. Dennis, of Cincinnati, Ohio, will

join the civil engineering corps of the Navy and expects to go to Vietnam; Frampton, of Charleston, S.C., will attend graduate school at North Carolina State University, majoring in industrial engineering. The three entered Auburn the same year and were awarded the naval honors on the basis of military aptitude and physical qualities, and for outstanding qualities in leadership and in scholarship in their chosen fields. They graduated August 28.

A Look At Auburn Of 20's 30's & 40's

(Continued from page 5)

if they go beyond Opelika, seniors shall get a pass only if college duty will be missed during the absence; Sunday roll call shall be optional for seniors; seniors shall be permitted to go to the train without restriction, underclassmen shall not go to the train except to go to Opelika, or elsewhere as evidenced by the purchase of a ticket.

Dr. Petrie's Ford and a freight train engaged in a dispute as to the right of way several days before the start of classes. "Be it recorded, the flivver for once was outdone, but 'Dean' was not seriously hurt."

40 years ago: President of the Executive Cabinet, John L. Christian, has resigned, due to an overload of work. He is replaced by E. H. Gray.

The new Animal Husbandry and Dairy Building is in use. The new Textile Engineering Building will include a complete textile plant in miniature. First semester students will assist with the installation of the equipment as part of their laboratory work.

Natural gas will arrive in Auburn sometime in October. In

order to keep the streets from being damaged, most pipes are being laid in alleys between buildings.

Auburn's pistol team has taken third place in a national meet, following Perdue and Oklahoma.

WAPI radio will carry three Auburn football games this fall.

Auburn's new football coach, Chet Wynne, was graduated from Notre Dame in 1922. For the past eight years he has coached at Creighton University, Omaha, Nebraska.

A dispensary has been established in room 312, Ross Hall. The dispensary will fill prescriptions from the college surgeon free of charge.

A word to the wise: "Late to bed, early to rise, keeps your room mate from wearing your ties."

"Two new comets, recently discovered, have been named 'Auburn Stadium' and 'Fraternity Row' because both are so far away."

Football jerseys will have numbers on both the front and the rear this year "for the convenience of the fans who have a

hard time identifying the players."

25 years ago:

The first post-war class enrollment totals about 3,000 students. This is an increase over the war years, but falls short of the pre-war record of 4,173.

President L. N. Duncan greeted the first peacetime class since 1941.

The Athletic Committee has submitted a petition to the Council of Deans recommending that quizzes scheduled on Saturdays of the five football days be re-scheduled.

Coed permission times are announced: Freshmen permission is 7:30 except Thursday, Saturday, and Sunday, when it is 11:00; Sophomore permission is 9:15 except Thursday, Saturday, and Sunday when it is 11:00; Junior and Senior permission is 11:00 except Friday and Saturday, when it is midnight.

Thirty war veterans are on the football team.

Auburn is leading the fight to allow transferees to play football without having to wait a year.

Auburn Alumnnalities

'07 Charles William Streit, Jr., of Birmingham will be added to the Alabama Sports Hall of Fame at induction ceremonies on Jan. 22. Mr. Streit was one of Auburn's first three-letter athletes in his year here. He was one of the heroes in the 1904 football win over Alabama and from 1938-39, he served as chairman of the Auburn athletic committee. In 26 years, he officiated in 425 football games, and in 1948-52 he was a member of the executive committee for the U.S. Olympics.

'09 In a note with his Alumni dues for 1970, Mr. R. A. White of Pensacola writes that he is doing fine. He is retired and has lived in Pensacola for 50 years where he knows a large number of War Eagles. Mr. White graduated in pharmacy.

'12 New address for Louis Howle is now Anniston.

'14 New address for Dr. John L. Prosser, chiropractor, is Tampa, Fla.

'15 Terrill Brazelton is president of Bath Alum Hunt and Country Club in Warm Springs, Va.

'20 NEW ADDRESSES: Melton W. Kyser, Jacksonville, Fla.; Allen K. Wood, Birmingham.

'21 NEW ADDRESSES: G. M. Meriwether, Fairhope; L. Roy Stokes, Holiday, Fla.

'22 William Thomas Abbott, now lives in Corpus Christi, Tex.

'23 James C. O'Neal of Shreveport, La., is still going strong in real estate, bank directing, fishing, and traveling. He would like to hear from any of his buddies from '20-'24. His address is P.O. Box 8507.

NEW ADDRESS: Reginal F. Pippin, Sanford, Fla.

'26 Samuel R. Morris, supervisor of the Gulf Region of the Plant Quarantine Division of the USDA, retired July 31 after more than 43 years work in agriculture quarantine work. After graduating from Auburn, Mr. Morris spent the next five years with the Federal Horticultural Board. In December 1931 he transferred to plant quarantine work where he became area and regional supervisor in 1954. During his years as supervisor he often came to the Auburn campus looking for Auburn boys to recruit for the Plant Quarantine Division. Mr. Morris was active in the Entomological Society of America and held positions as secretary-treasurer in 1963-65; vice chairman in 1968; and chairman in 1969 of the Southeastern Branch. He and Mrs. Morris will continue to live in New Orleans.

NEW ADDRESS: Earl McFadden, Raleigh, N.C.

'27 B. P. Curtis of Birmingham has retired after 43 years with U.S. Steel. He was agricultural representative.

'28 Dr. L. Tennent Lee, Jr., has been appointed to serve in the dual capacities of administrative coordinator of continuing education in the professions and associate dean for extended services in the University of Alabama College of Education at Tuscaloosa.

Dr. Joshua A. Lynn retired March 30 after 39 years of veterinary work for the Department of Agriculture in the State of California. He and his wife plan to spend some time abroad visiting their son and family in Paris.

NEW ADDRESSES: Mrs. Clara Briscoe Gatlin, Hartselle; Thomas L. Mosely, Conroe, Tex.

'29 Martin Whitten was recently featured in the *Opelika-Auburn News* series on "People who make a Difference." Mr. Whitten spent 46 years as a teacher and superintendent of education in Alabama. He spent 33 years in Lee County Schools—24 as superintendent—prior to his retirement in 1965. Mr. Whitten is listed in "Who's Who in American Education" and "Who's Who in the South and Southwest." He and his wife celebrated their Golden Wedding Day last Christmas Day. They live in Opelika.

J. J. Young, County Extension chairman in Cherokee County, resigned July 31 after 26 years in the county as assistant and county agent. He is holder of the Distinguished Service Award from the National County Agents Association and a member of the Gamma Sigma Delta honorary agriculture fraternity.

NEW ADDRESSES: G. Howard Smith, Rome, Ga.; Amand S. Du Bois, West Haven, Conn.

'30 NEW ADDRESSES: Joe Reed Long, Jr., Carrollton; Archie V. Meigs, Houston, Tex.; Dr. William C. Welden, Orlando.

'31 Gordon R. Holstun retired July 1 after 39 years in education in Thomaston and Upson County, Ga. He began his career at R. E. Lee Institute in Thomaston in 1931 where he was teacher, athletic director, and principal. In 1941 he was appointed superintendent of the county schools and was re-elected to 7 four-year terms without opposition. At the same time he was superintendent of Thomaston City Schools for 22 years (1948-70). His 29½ years as county superintendent are longer than any other superintendent in Georgia in one system. His joint superintending of city schools and county schools is believed to be the only such case in the South. Mr. Holstun continues to live in Thomaston and will be professor of education at Tift College in nearby Forsyth, Ga. More than 50 members of his family have attended Auburn including his brothers, Harvey '21 (deceased); Beverly R. '22, and Reese C. '35.

Hugh P. Henderson retired June 30 after 29 years with the Reynolds Alloys plant at Sheffield.

He was an accountant moving up the ladder to senior accountant and served as general accounting supervisor. He and Mrs. Henderson will continue to live in Sheffield. They have two children, Mrs. Lynn Russell of Sheffield, and Capt. Frederick Henderson of Cocoa, Fla.

George W. Fahrubel retired Nov. 1, 1969 after 29 years with the Department of Defense (civil service). He spent the last 11

Barrett

Lester

Nancee Thompson Barrett '39 is press secretary for Senator Louis A. "Skip" Bafalis, Republican of Palm Beach, who hopes to unseat Florida Governor Claude Kirk, Jr., in the September primary. Mrs. Barrett, of St. Petersburg, taught ten years in the Pinellas County Schools, was a police reporter for *The Evening Independent*, an associate editor of *The Gulfport Tribune* and edited and published "The Pitch Pipe Magazine" for Sweet Adelines, Inc., an international women's quartet society. She was publicity director for 25 years for the St. Petersburg Little Theater, where she has also directed and acted in many productions. During the past year she won the "Contessa Award," given by the Florida Suncoast Opera Guild, Inc., "for the greatest service to the cultural growth of her community" received a certificate for outstanding civic service from the Mayor; and last month was awarded an Honorary State Life Membership in PTA "for 30 years service to youth and the community in bettering educational standards." She and Mr. Barrett have three sons, all honor students and Eagle Scouts: Stephen Christopher, 21, a senior at the University of South Florida; Allen Michael, 16, a senior at Lakewood High School, and Mark Elliott, 13, a ninth grader at Bay Point Junior High.

James W. Lester '39 is the new president of the North Carolina Home Builders Association. He has been active in the National Association of Home Builders, serving as national director of NAHB of Winston-Salem and Burlington; as a member of the business management committee and of the advisory committee of area four. Mr. Lester, who is president of Spence and Lester, Inc. and Spence, Lester and Crumpton, Inc., was named North Carolina's first builder of the year in 1968 and also won for his company an award for the Best Designed Traditional Home in Chapel Hill's Briarcliff Subdivision. He and his wife Elaine have two children, Vickie and Jay, and they live in Burlington.

years with the Safeguard Anti-Missile System. He and his wife, Martha, will continue to live in Huntsville.

'32 NEW ADDRESSES: William S. Pollard, Pine Bluff, Ark.; W. H. Sparks, Kaukaee, Ill.; Robert A. Baxter, Gulf Shores.

'33 Col. Lester H. Clark now lives in Jacksonville.

'34 James W. Wible of Hayneville won the South Central Region's award in the 1970 Conservation Photo Contest sponsored by the Soil Conservation Society of America. He won the award for a color slide entitled "Beauty of Nature."

E. Frank Dunford now lives in Combermere, Ontario, Canada.

'35 Peyton Tutwiler, III, has been promoted to pulp mill superintendent at the Mobile mill of International Paper Co. He joined International Paper at the Mobile mill after receiving an M.S. from Auburn in chemical engineering in 1937. He served in a number of positions until he entered the Army in 1941. After the war, he returned to the Mobile mill in 1946 as assistant chief chemist. He was promoted to technical assistant to the pulp mill superintendent in 1947 and groundwood mill superintendent in 1956. He became assistant pulp mill superintendent in 1964.

'36 Col. Ralph A. Tolve is at Port Arthur, Tex.

'38 NEW ADDRESSES: Virgil O. Deloney, Midland City; James W. Turnipseed, Jr., Pascagoula, Miss.; John M. Cranford, Anniston; Mason Studdard, Carbon Hill.

'39 Torrence A. Russell, Jr., of the Birmingham office of Massachusetts Mutual Life Insurance Co., has completed a week of advanced training at the company's home office in Springfield, Mass.

Arden E. Bradley, Jr., and his family have moved to Nashville, Tenn. He is an industrial engineer with United Cities Gas Co.

Ivy Cliff B. Weldon is area counselor with Birmingham Metropolitan Area Skill Center.

NEW ADDRESSES: Comdr. Samuel M. Tharp, Jr., Gulf Breeze, Fla.; The Rev. H. Frank Chunn, Demopolis; Perry J. Schwartz, Birmingham; Mrs. Rene Gibson Pollard, Jacksonville, Fla.

'40 Col. John Redmond, Jr., received a Legion of Merit in June upon his retirement from the Medical Service Corps. Col. Redmond had been consultant in sanitary engineering and assistant chief of the Medical Service Corps and chief of the sanitary engineering section. After his retirement, he is a professional associate in the Division of Medical Sciences with the National Academy of Sciences in Washington, D.C. Col. Redmond holds the "A" prefix for professional excellence. He has been awarded the Meritorious Service Medal and the Army Commendation Medal. The Joint Service Commendation Medal was presented to him recently at a Pentagon ceremony in recognition of

his work as chairman of the Department of Defense Environmental Pollution Control Committee during the past year. Col. and Mrs. Redmond will live in North Springfield, Va.

Gilbert O. Spencer, science professor at Troy State University, retired at the end of August after 44 years in public education in Alabama. He taught physics and astronomy at Troy State since 1955.

C. S. Bazemore, a vocational agriculture teacher at Wetumpka High School for 30 years, was honored in July at the 51st annual conference for agriculture teachers for outstanding service in agriculture.

NEW ADDRESSES: Earl R. Gardner, Centre; Stella L. Mit-

(Continued on page 10)

Alumni In The News—

Payne

Parkman

Thomas C. Payne '40 has been promoted to general manager of International Paper Company's northern division, which has its headquarters in Glens Falls, N.Y. He will be responsible for operation of the company's pulp and paper mills located in the states of New York, Maine, Pennsylvania, and Oregon. He joined International Paper in 1937, and has worked in many operating and construction positions throughout the U.S. In 1968, Mr. Payne was promoted to the Southern Kraft Division in Mobile, as manager of construction and engineering for the Southern mills. He then moved to the northern division and has been serving as assistant division general manager—production. Mr. and Mrs. Payne have three children.

J. W. Parkman, Jr., '41 has been promoted to assistant district manager (ice cream) for the southern district of Beatrice Food's Meadow Gold Dairy Division. In his new position, Mr. Parkman will be responsible for developing and coordinating all ice cream operations, sales and customer services in the southeast district. He also will continue as manager of the company's Supreme Ice Cream Division in Dothan, where he maintains his headquarters. Mr. Parkman has been with Supreme since 1937. He has served as a director of the Southern Association of Ice Cream Manufacturers, International Association of Ice Cream Manufacturers, Georgia Dairy Products Association and Alabama Dairy Products Association. He is a past president of the Alabama and Dixie Dairy Products Associations.

Have Song, Will Sing—

The Mark Twain—From Chasing The Bear To Chasing The Dream

Whether you heard them singing their "Birmingham Bear Chase" on an Auburn radio station (or via a student tape recorder miles away), saw them present a half-time show on regional TV during the Auburn - Tennessee basketball game, or met them recently in Atlanta's Clock of Fives Restaurant in the Regency-Hyatt House, you are apt to remember "The Mark Twain."

Richard McLean and Steve Hudson, the two young men who make up "The Mark Twain," got their widest publicity last fall with a song about Coach Jordan's boys in blue which turned out to be an accurate prediction of how the Auburn-Alabama game would turn out.

Spur-of-Moment

Richard wrote "The Birmingham Bear Chase" on the spur-of-the-moment last fall several weeks prior to the Alabama game. He and Steve made a tape of it and carried it to radio station WAUD and asked if they would like to play it. The response was favorable and immediate, and the next few weeks "Birmingham Bear Chase" became the most popular song to hit Auburn in recent years.

At the day of the big game approached, neither the novelty nor the song's popularity waned; instead, the announcers were telling how many minutes until they would play it again and giving students ample time to turn on their tape recorders.

Original, Catchy

Unlike many topical songs which depend on someone else's tune, or parody another's words, "The Birmingham Bear Chase" had original words and tune and a professional performance. Behind the spur-of-the-moment song were years of experience. Richard and Steve began singing together as sophomores at Theodore High near Mobile and have been singing together for eight years in one form or another. In high school they sang in choruses and quartets. When they came to Auburn, they sang with a barbershop quartet called "The Jesters."

For Fun, Profit

When two of the jesters graduated in 1968, Steve and Richard decided to try entertaining on their own. "The Mark Twain" is the result and the name suits their brand of entertainment and their love of a joke. In the ensuing years, "The Mark Twain" has performed for fun, profit, applause, and laughs at coffee houses, banquets, parties, ETV shows, high schools, colleges, night clubs, and churches.

Although neither Richard nor Steve studied music at Auburn, it may well become their profession. Richard started out as a forestry major but as a junior decided he could more fittingly combine his love of writing with his love of the outdoors in a journalism major and switched curriculums. A few months later, he quit raising plants for the Zoology Department to become an assistant and sports editor for

The Alumnews Steve majored in building technology and worked part-time with a local construction firm.

Together they worked in numerous personal appearances and a series of ETV programs, around their classwork and jobs. In hasty late-afternoon telephone conferences they lined up the numbers for their show that night and decided what to wear—often calling in the important aid of Steve's wife Sara who knew the state of her husband's closet and on more than one occasion hurriedly washed and ironed a shirt for bachelor Richard.

When Steve graduated last March, "The Mark Twain" came to a crossroads. Richard still had two quarters to go on a degree. Originally both Richard and Steve had planned to go back to Mobile and pursue their separate careers but keep "The Mark Twain" together as a week-end sideline. However, the immediate popularity of "The Birmingham Bear Chase," and their success locally and on ETV convinced them to try show business for a while. So Richard postponed graduation and they started in Atlanta.

Since April, Richard and Steve have auditioned and performed and learned about the intricacies of show business, of getting a record cut, and of human nature. They have performed at several places in Atlanta including a stint at Underground Atlanta and a long (now 18 weeks) engagement at the Clock of Fives Restaurant where they expect to be throughout the fall. The experience, they say, has been both encouraging and discouraging.

Day & Night

Performing nights from 5 to 11, Monday through Saturday, has given them their daylight hours to make plans for a regular record and to get their "Birmingham Bear Chase" cut. They are now busily trying to get it on the market. Richard, who describes himself as a "hyper-mature Auburn senior," sees to the printing and public relations part of the business, while Steve is out with the briefcase and order blanks contacting record stores.

Record Available

The record, on their own label "New Samford Records" (appropriately printed in orange and blue) is available for \$1.50 (including postage and tax) from The Mark Twain, P. O. Box 1107, Smyrna, Ga. On the back is a slow version of "Dixie." "The Birmingham Bear Chase" will also be in record stores in many major cities (they kiddingly elaborate—"Auburn, Waverly, Notasulga") mainly in Alabama but also in Atlanta.

Richard and Steve have a sound and a show as personable and versatile as themselves. They call their music "contemporary—

a cross between rock and folk with a touch of bluegrass." Their humor mixes in college, sophisticated, and cornpone, and they are not above stealing a joke from someone else or trying it out on their friends. They get some of their best lines in witticisms at each other's expense. They make an audience listen, they make an audience laugh, and even more unusual, they make an audience join in.

Appeal Is Natural

A big part of their appeal is their naturalness; in fact an interview with Richard and Steve gives one a preview of their style. It ranges from the serious to the superfluous, from spoof to philosophy. When the talk is about themselves, the mood is apt to be light, but when the subject is music, both quickly get serious—although there is no guarantee they will stay that way.

They do have individual philosophies of music and of performing. Steve, who plays the six-string guitar, says:

"Today's music is probably more expressive than it has been at any other time. People are becoming more aware of themselves and the world around them, and it shows in the music

they are writing whether it's rock, folk, country, or what-have-you. There are some good sounds and different sounds floating around today, and I like to hear and sing them.

'Not Crusaders'

"Unlike some groups we don't choose our music to express one point of view. A lot of people think that because you're an entertainer, you must have some radical sociological or political philosophies. We're singers, not crusaders."

'An Entertainer'

Richard, who plays the 12-string guitar and the banjo, expands on his personal views:

"I like to think of myself more as an entertainer than as a singer or an instrumentalist. There's a difference—I've seen big-name record artists do a medley of their biggest hits and put their audience to sleep. I've also seen little-known performers give an audience real entertainment with a good act and have them yelling for more.

"It's not enough just to be able to sing or play well. You've got to establish a two-way communication with the audience. They have to identify with you, and

you with them. I think a good joke is as important to a show as a good song. I guess I like to hear people laugh as much as I like to hear them applaud."

But whether the audience is laughing or applauding, Richard and Steve want to be in front of one as long as possible. As Richard says, "It's the greatest feeling in the world."

Old Gloms For Sale

Conditions of these various Glomeratas range from like-new to shopworn. All have good bindings. The price is \$6.50 each, with order, including packaging and mailing charges. Where supplies are limited, preference will be given to orders received first. Figure following the year indicates the number available: 1938 (2), 1945 (3), 1946 (11), 1947 (4), 1948 (4), 1949 (1), 1950 (5), 1953 (8), 1955 (1), 1957 (27), 1958 (1), 1959 (88), 1960 (117), 1961 (4), 1962 (51), 1963 (85), 1965 (3), 1967 (46), 1968 (1), 1969 (136), 1970 (550).

Please address orders to Yearbook Advisor, 304 Martin Hall, Auburn University, Auburn, Alabama 36830.

THE MARK TWAIN— The faces of Richard McLain (left) and Steve Hudson are familiar around Auburn and so is their sound.

FIRST GEOLOGY GRADUATES—Nancy Marbel Roach and David W. Yeager are the first students to be graduated from the Department of Geology, which was instituted at Auburn University in 1967-68. Both received the B.S. degree in commencement exercises Aug. 28. Mrs. Roach, a native of Ft. Myers, Fla., plans further study in graduate school and is interested in sedimentary petrology and clay mineralogy. She is married to Dr. John A. G. Roach, and is the mother of an 11-month-old daughter. Yeager, of Pelham, was recently awarded first prize by the Academy of Science and second prize by the Geological Society for a paper, "Petrology of the Newala Limestone, Northern Shelby County, Alabama." The abstract will be published in the *Journal of the Alabama Academy of Science*. Planning to enter graduate school eventually, Yeager will serve with the United States Coast and Geodetic Survey, beginning in October.

ALUMNALITIES—Continued

chell, Phenix City; Dr. T. Upton Cleary, Philadelphia, Pa.; Jenkins Hill, Campbell; Dr. Tyler J. Young, Gainesville, Fla.

'41 Sabel E. Baum operates Dixie Engineering Co. in Birmingham.

Earl Hodson is president of Electronic Data Processing of Opelika.

W. O. Crawford of Montgomery has been elected president of the National Association of Life Companies. He is president of Southern United Life Insurance Co. of Montgomery.

NEW ADDRESSES: Troy F. Sewell, Clanton; Col. Norman L. Hall, Columbus, Ga.; Fay W. Waldrop, Conyers, Ga.

'42 Dr. William M. Suttles is the new executive vice president and provost for Georgia State University. Dr. Suttles will have administrative supervision over all areas of the university including academic affairs. He has been vice president of academic affairs at GSU since 1964 and is also professor of speech and professor of educational administration and higher education. He is pastor of the Haralson Baptist Church, and in 1959 he was named Georgia's Rural Minister of the Year. He is a former vice president for personnel of Rich's, Inc., and prior to that he was dean of students at Georgia State.

NEW ADDRESSES: John L. Pierce, Saltillo, Coahuila, Mexico; Howard S. McMillan, Jr., Daphne; Mrs. Eleanor Hightower Thomas, Chicago, Ill.; James R. Younger, Venice, Fla.; Jack I. Joyner, Gulfport, Miss.; Cooper L. Frazier, Belle Mina; Mrs. Mary Emma Hicks Roberts, Gastonburg.

'43 Col. Howard E. Cody now lives in Montgomery after retiring from the Air Force following 30 years of service.

Col. Charlie G. Kershaw, II, is serving in Vietnam.

Ernest A. Herlong, general commercial manager for South Central Bell in Alabama, has been appointed vice president of Region 13 of the Telephone Pioneers of America. The Pioneers is the largest social-industrial organization of its kind in the world. Services include teaching and counseling disadvantaged children and adults in inner-city areas, and aid to blind, deaf, physically handicapped, and mentally retarded.

Roger D. Smith has joined National Spinning Co., Inc., as corporate director of quality control. He was formerly quality control manager of Celanese Fibers located in Charlotte, N.C. He and his son are now living in Washington, N.C. Mr. Smith will have responsibilities in the areas of quality improvement and assurance for National's five plants located in Eastern North Carolina.

NEW ADDRESSES: Edward J. Lide, Atlanta; Ernest C. Vaughn, Jr., Starke, Fla.; James G. Johnson, Jr., Atlanta; Dr. Willis H. Irvin, Dallas, Tex.

'44 Gilbert L. Raulston is with the Army Institute of Surgical Research at Brooke Army Medical Center at Ft. Sam Houston, Tex.

Rep. Pete Turnham of Auburn was elected an advisor to the steering committee of the Education Commission of the States in July. The Commission is a nonprofit organization formed in 1966 to bring governors, educa-

In Memoriam '02 Through '69

Richard Blount Shepard '02 of Birmingham died Aug. 6. He had lived in Birmingham since 1929. He was a retired civil engineer with Alabama Power Co. and a life member of the American Society of Civil Engineers. Survivors include two daughters, Mrs. Richard Hail Brown of Birmingham and Miss Frances Shepard of New York; and four brothers, William Martin Shepard of San Francisco, Lucian Hamilton Shepard of Mt. Vernon, Tazwell Taylor Shepard of Mobile, and Francis Minor Shepard '08 of Birmingham.

Herman Grimes '08 of Pine Apple died July 26 after an extended illness. He is survived by his widow, Mrs. Rebecca Stone Grimes; two daughters, Mrs. J. H. Kyzar, Jr., of Andalusia, and Mrs. Lee Hawthorne of Camden. He was a retired postmaster having served at Allenton and Pine Apple for over 40 years.

Dr. William Monroe Howell '09 of Clio died Aug. 8 in a local hospital. Survivors include two sisters, Mrs. Rosa Rush and Mrs. C. M. Gibbons, both of Clio; and one brother, John E. Howell of Glendale, Calif.

Howard K. Porter '09 of Ridge-wood, N.J., died June 12. He is survived by his widow.

Ben S. Weil '10 of Birmingham died July 23 at a local hospital. He is survived by his widow Mrs. Rosalyn Lurie Weil; one daughter, Mrs. Charles A. Collat; one son, Leonard J. Weil, all of Birmingham; and one sister, Mrs. Fannie Loeb of Los Angeles, Calif.

William T. Summers '13 of Barnesville, Ga., is deceased according to recent information.

John Wesley Lawler '14 of the Beauregard Community near Auburn died in August following a lengthy illness. A retired farmer he also managed the Farm Bureau Insurance Agency in Opelika for 15 years. Mr. Lawler was a first lieutenant during WWI and was a member of the American Legion. Surviving are his widow, Mrs. Ary Herring Lawler; three sons, Kempler, Harbert '54, and Charles, all of Opelika; and a daughter, Mrs. Henry Swatts of Opelika.

Henry W. Perry '15 of Birmingham died May 6.

Col. Irby R. Pollard '15, U.S.A. Ret., died at his home in Bradenton Beach, Fla., on Aug. 20. Survivors are his widow, Mrs. Grace Pollard of Bradenton Beach; a nephew, James S. Pollard, and a niece, Mrs. Virginia Davidson, all of Mobile.

E. Chester Nelson '17 of Ft. Smith, Ark., died April 9 according to recent information.

Mrs. Barbara Wright Easter '17 died Aug. 23 at her home in Birmingham. She is survived by her husband, Everett C. Easter '21; a son, Everett C. Easter, Jr., of New York City; one brother, G. H. Wright of Auburn; and one

sister, Mrs. Margaret Wright Pruitt of Anderson, S.C.

William Dewitt Dillard '18 died July 14 in a Huntsville Hospital. He is survived by two nieces, Mrs. Donna Mae Allen of Montgomery and Mrs. Nancy Henry of Augusta, Ga., and two nephews, Charles Gray Dillard Morgan of Atlanta and Robert A. Morgan, Jr., '37 of New York.

Benjamin T. Kirby '18 of Newnan, Ga., died March 5 following a heart attack. He is survived by his widow.

Robert Turpin Ashurst '20 died Aug. 27 in a Montgomery hospital, after a brief illness. He had been owner and operator of Ashurst Drug Co., for more than 40 years. He went to Montgomery in 1917 after leaving Auburn. Survivors include his widow, Mrs. Vivian E. Ashurst of Montgomery; two sons, Dr. Robert Ashurst, III, and Walter T. Ashurst '48 both of Montgomery; four brothers, Paul L. Ashurst, Hugh M. Ashurst '28, John M. Ashurst, and A. Frank Ashurst, all of Montgomery; and two sisters, Mrs. Arthur Page, Montgomery, and Mrs. George Ward, of Mobile.

William Stephenson Halsey '20 of Tusculumbia died July 17 in a Hartselle hospital. Surviving are his wife; one son, William Halsey, Jr., of Anniston; and a daughter, Mrs. Louie L. Brown of Decatur.

Dr. Napoleon B. Tyler '21 of Raleigh, N.C., died March 3. He was with the Veterinary Division of the Department of Agriculture of North Carolina.

William H. Winton '21 of Gadsden died Feb. 22.

Horace C. Cooper '22 of Mulberry, Fla., is deceased.

Charles G. Ollinger '21 of Shalimar, Fla., is deceased.

James F. Maury, Jr., '22 of Mobile died Aug. 3, 1969.

Robert McKee Powe '24 of Dallas, Tex., died Jan. 15. He is survived by his widow.

Chester W. Winn '25 of Fort Payne died March 17. He is survived by his widow.

Joseph M. Wolfe '26 of St. Augustine, Fla., died March 22. He is survived by his widow.

George B. White '26 of Gadsden died in University Hospital in Birmingham on June 14. He is survived by his wife.

William C. Regan '27, a Mobile businessman died in a local hospital July 30 following a long illness. He had lived in Mobile most of his life and operated three businesses, W. C. Regan Co., Record Shop, and Hobby Shop. Surviving are his wife, Mrs. Anna Louise Raue Regan; a son, W. C. Regan, Jr., '57, a sister, Mrs. A. Newell Beville, and three grandchildren, all of Mobile.

Malcolm J. Meadors '28 of Anniston died April 16. He is survived by his widow.

Terrell Cantrell '30 died July 22 in Guntersville hospital with rheumatoid arthritis. Survivors include his wife, Eva Byard Cantrell '29 of Boaz; two daughters, Barbara C. Brumeloe of Boaz, and Betty C. Moody of Birmingham and six grandchildren.

Col. J. Fred McClendon '30 of Perdido Beach died July 5.

M. Maxwell Caskie, Jr., '33, vice president for government relations and manager of the Washington, D.C., office of Reynolds Metals died Aug. 11 in a head-on collision near Spot, N.C. He and his family were vacationing at Nags Head, N.C., when the accident occurred. He joined Reynolds in 1946 and had been manager since 1956. He was appointed an assistant vice president in 1948 and was elected a vice president three years ago. He is survived by his wife, Mrs. Clara Robison Caskie of Washington; a daughter, Mrs. Helen Bothwell of Dallas, Tex.; three sons, Marion, II, of Tallahassee, Fla.; Cabot R. of Fairfax, Va., and Allen R. of Arlington; his mother, Mrs. Marion M. Caskie of Calverton, Va.; a sister, Mrs. Nelle Gulick of Catlett, Va.; two brothers, Warren W. and Challen E. of Richmond, Va.

Claud Samuel Pritchett '34 of Silver Spring, Md., was murdered Aug. 15. Police believe the motive was robbery. Mr. Pritchett had retired from the research division of the Navy food service in November, 1969. He had been in the Washington area since WWII. He is believed to be the first male graduate in dietetics at Auburn University. Mr. Pritchett had spent his retirement working with his flowers and making educational and entertainment tape recordings for use by blind and handicapped persons and servicemen.

Lawrence Ennis, Jr., '34 of Auburn died in an automobile accident near Camp Hill on Aug. 16. He had retired only three weeks earlier from the Auburn University Cooperative Extension Service where he was an agricultural engineering specialist. Prior to joining the Extension Service Mr. Ennis had worked with the Soil Conservation Service, and served in WW II, where he earned the Legion of Merit, the Purple Heart, and the Italian Medal of Military Valor. Surviving are his wife Jane Yarbrough Ennis '32; a daughter Mrs. Arthur (Mary Jane) Jones '63 of Sylacauga; a son, Capt. C. Lawrence Ennis '64 of Edward AFB, Calif.; his mother, Mrs. Edna Ennis of Birmingham; a sister, Mrs. Evelyn Morris of Atlanta; two brothers, J. P. Ennis '38 of Birmingham, and Dr. John Ennis of Huntsville.

Gus L. Wood, Jr., '35 of LaGrange, Ga., died Feb. 14 of a massive heart attack. He is survived by his widow.

(Continued on page 11)

IN MEMORIAM

(Continued from page 10)

John Albert Clopton, Sr., '35 of Birmingham died Aug. 7 in a local hospital. He is survived by his wife, Mrs. Margery Clopton; two sons, John A. Clopton, Jr., of Montevallo, and James W. Clopton; three daughters, Miss Mildred Louise Clopton, Miss Margery Ann Clopton, and Miss Mary Jane Clopton, all of Birmingham; father, John W. Clopton and stepmother, Mrs. John W. Clopton, both of Decatur.

Dr. Bernard A. Maloney '36 of Galesburg, Ill., died June 6 of a heart attack. He had practiced veterinary medicine 17 years at Independence, Mo., before becoming associated with the State of Illinois Division of Veterinary Medicine. Survivors include his widow, Mrs. Juanita Proctor Maloney; a daughter Mrs. Chris (Thea) Heater of Paduca, Ky.; two brothers, James and William both of Raytown, Mo.

Walter S. Collins, Jr., '36 of Birmingham died Nov. 3, 1969. Survivors include his mother, Mrs. Beulah Collins of Birmingham.

Keatley Graham Baker, Jr., '40 of Millbrook died at his home in August. He is survived

by his wife, Dorothy Malinda Baker of Millbrook; his mother, Mrs. K. G. Baker of Auburn; a son, Keatley G. Baker, III, of Millbrook; and one daughter, Miss Malinda Lee Baker of Millbrook.

Dr. Charles K. Newton, D.V.M., '45 of Bradenton, Fla., is deceased according to recent information.

Joseph W. Bayliss '47 of Birmingham died Aug. 16. He is survived by his wife, Mrs. Anne McCutcheon Bayliss; one daughter, Mrs. Joe Ann Dawkins of Birmingham; mother, Mrs. John M. Bayliss, Sr.; four sisters, Mrs. Alton J. Nance, Mrs. I. E. McReynold, Mrs. James D. Griffin, and Mrs. Harry Dickenson; six brothers, James A. Bayliss, W. B. Bayliss, Charles M. Bayliss, John M. Bayliss, Jr., Robert B. Bayliss, all of Birmingham; Eugene R. Bayliss of West Park, Conn.

Alfred Foy Cook '50 of Union Springs is survived by his widow Carolyn Williams Cook '60.

Joseph McReynolds Moore, Jr., '50 of Montgomery died suddenly in his office on July 17. He

was a partner in the Montgomery architectural firm of Chambless and Moore. He was a past president of the Montgomery Association of Architects. During his career he did work in the Philippine Islands, Bermuda, and France, however his work was primarily in Alabama and Mississippi. He recently received an award from the American Institute of Architects for his design of Union Bank and Trust Company's Green Lantern Branch in Montgomery. He is survived by his widow, Mrs. Dorothy Jean Davis Moore; four children, Marjorie Heard Moore, Joseph Russell Moore, Laura Davis Moore, and William Wirt Moore, III; mother, Mrs. J. M. Moore, Sr., of Camden; and two sisters, Miss Martha Moore of Camden and Mrs. William Gafford of Mobile.

Mrs. Frances Lamb Williams '50 of Opelika died Aug. 19 in Lee County Hospital. Surviving are her husband, Raleigh Williams, a retired cotton buyer for Pepperell Mfg. Co.; three sisters, Mrs. Kathleen Lamb Green '49 of Abanda; Mrs. J. W. Green of Biloxi, Miss., and Mrs. Angie Lamb Hyde '38.

Mrs. Regina West Milldrum '50 of Clayton is deceased according to recent information.

Estelle M. Wickham '54 of Columbus, Ga., is deceased. She is survived by her mother, Mrs. Estelle McElvey Wickham of Columbus; three brothers, William C. Wickham, D. Neal Wickham,

principal of Dean Road Primary School in Auburn during the coming year. He had previously been principal of the school and of Cary Woods School. At the time of his appointment, he was director of the Materials Center of the Auburn school system.

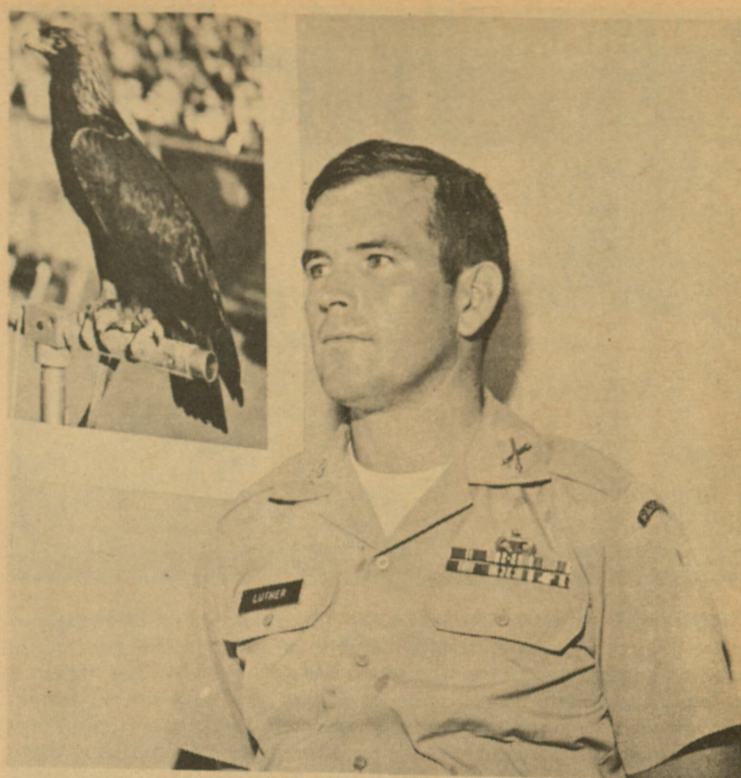

Ben A. Ansley is new administrator of the Floyd Hospital in Rome, Ga. He joined the hospital in July after being administrator of Ridgecrest Medical

Kirtley Brown Dies In Marion

Charles Kirtley Brown, former news editor and director of student affairs at Auburn, died July 24 in Marion. He was at Auburn for 17 years and went to Perry County in 1946 to operate a cattle farm until his retirement. At the time of his death he was director of student publications at Marion Institute.

His ties with Auburn were strong. His father, Dr. J. V. Brown was one of the college's early football stars and later became director of buildings and grounds and alumni secretary. His brothers, Roberts H. Brown '30 of Opelika and Brig. Gen. (Ret.) Travis T. Brown '31 of San Francisco, are Auburn alumni.

Also surviving Mr. Brown are his wife Mary T. Ward Brown, and his son, Kirtley Ward Brown of Brewton, and two sisters, Mrs. Irene Brown Weaver and Mrs. H. L. Harvin both of Corpus Christi, Tex.

Wade L. Allen '51 has been appointed area development representative for Gulf Power Co. in Pensacola, Fla. Mr. Allen and his wife, Ruth, live in Milton, Fla. They have two children, Sandy, 17, and Wade, III, 12.

Record Number Of Fans To See Auburn Games

by Buddy Davidson '64

As the team prepared for the first game, Auburn football had hit a peak it never enjoyed before with a record of 26,000 season ticket sales. Already three campus games with Georgia Tech, LSU (Homecoming) and Georgia have sold out.

More fans than had ever watched Auburn play in Cliff Hare Stadium were on hand for the season opener against Southern Mississippi. Less than 3,000 tickets remained to the Tennessee game in Birmingham's Legion Field at press time.

The Tigers are a good draw on

the road also. Out of town games with Kentucky and Florida are also sellouts. The Clemson game is nearing a sellout and should be game time.

If this trend holds true, the only game on the Tiger schedule that might not sell out is the Mississippi State game in Birmingham.

Auburn went into its season

opening game with its returning offensive backfield of Pat Sullivan at quarterback, Wallace Clark at fullback and Mickey Zofko at tailback intact.

This trio started Auburn's last six games of the 1969 season together and accounted for 36 of the team's record 49 touchdowns. Larry Thompson started at offensive left guard in place of injured Jimmy Speigner and was the only sophomore to open the game on offense.

Three sophs made the first de-

fense. Danny Sanspree of Atmore at end, Dave Beck of Huntsville at safety, and Johnny Simmons of Childersburg at left sideback. However, sophomores Gardner Jett, and David Beverly were scheduled to do the kicking.

All fall, Head Coach Ralph Jordan has been striving for the offensive balance that enabled his 1969 troops to lead the SEC in both scoring and rushing offense. At the same time the '69 crew set new school records in passing yardage and TD passes.

All-in-all the 1969 offense was the best ever at Auburn, and seven of these starters return.

The defense has undergone a rebuilding job, but Jordan could start a letterman at every position if he so desired. As it has worked out, three sophs made the first unit.

Even though punter Connie Frederick and place kicker John Riley have graduated, Auburn should have adequate kicking in 1970. Roger Pruett has been injured, but Beverly and Jett should be able to fill in for him.

Time-Saving Route For Football Fans

To minimize travel through downtown Auburn and cross traffic immediately around Cliff Hare Stadium, specific traffic routes have been set up for football games. The overall plan will direct traffic from highways to parking areas on the side of the stadium from which it comes.

The Western Bypass, now under construction, will not be complete, but the stretch from Wire Road to State Highway 29 South is expected to be ready for use later in the season.

Football traffic from the north, US 280 and State Highway 147, will be directed via Drake Ave. and Bragg Ave. to Donahue Dr., south parking areas west of the stadium, and to Morris Drill Field.

Traffic from the west on State

Highway 14 will be directed across the railroad on Bird St. to West Magnolia, to Morris Drill Field.

Traffic from the south on Wire Road will be directed to Morris Field.

Traffic coming from the east on I-85 should continue to the US 29 interchange. All traffic from the US 29—I-85 interchange will be directed via Donahue to parking areas west of Donahue.

Traffic from the east, via Highway 29 and E. Glenn Ave., can park in the Felton Little

Park area—Ross St. between Glenn and Magnolia. Parking here will mean walking approximately one mile, but will avoid downtown traffic. Traffic can proceed on Glenn to Donahue and south to Morris Field.

Traffic from the southeast on Lee County 12 and Samford Ave. can park behind Samford Middle School which will mean walking approximately three-fourths of a mile. Traffic also can proceed west on Samford to park in lots on Samford between Mell St. and Duncan Dr.

The parking lot east of the Coliseum will be reserved for buses. To reach the areas, buses from the north on US 280 and Highway 147 should continue south on College St. to Samford and west to Donahue. Buses en-

Sgt. Louis Slovinsky is an instructor at the Infantry training center at Ft. Jackson, S.C.

MARRIED: Margene Brown to Richard Terry Washam on Aug. 22 in Tuscaloosa. Terry is doing graduate work at the University of Alabama in Huntsville. . . .

Linda Gail Dunlap to Glen William Bazemore in Montgomery on Aug. 22. He is employed with Koppers Co. . . . Ava Sheryl Harrison to Hal Pattillo Rozelle in Lincoln on Sept. 12. . . .

Patricia A. Harrell to Charles L. Odom in March. They live in Atlanta. . . . Leslie Russell to Joseph Dixon Pate. They live in Columbus, Ga. . . .

Betty Turner to Robert M. Bowick on Aug. 22 in Jackson, Miss.

BORN: A son, Frederick Martin, Jr., to Lt. and Mrs. Fred M. Thurman on May 3 in Marietta, Ga. Lt. Thurman is a pilot at Dobbins AFB, Ga. . . . A son, Frank Marion, III, to Mr. and Mrs. Frank M. Monroe, Jr., of Opelika on July 15.

A son, Christopher Norman, to Dr. and Mrs. Donald C. Wood of Atwater, Calif., on July 29. He joins brother Robbie, 2. . . .

A son, Raymond Boyd, to Mr. and Mrs. Eddie C. Williamson (Nan Adams) of Camilla, Ga., on June 22. . . . A son, Shane Willis, to Mr. and Mrs. Frank Rasbury (Mary Cofield) of Dadeville on April 11. . . .

A son, James H. Kirkland, III, to Mr. and Mrs. James Homer Kirkland, Jr., (Ola Gay Shortridge '67) of Huntsville on Aug. 3. She joins sister Natalie Ruth.

A daughter, Natalie Jo, to Mr. and Mrs. Michael F. Gaines (Carol Louise Kain '67) of Glendale, Ariz., on Aug. 13. . . .

A son, Adam Campbell, to Mr. and Mrs. Alexander Walker, III, of Nashville on June 3. Alec is with Gresham and Smith Architects in Nashville.

'69 WHERE THEY'RE WORKING: Larry E. Ryan has been transferred from Selma to Birmingham by South Central Bell. His new post is state transmission and protection engineer.

John Pershing Anderson, Jr., of Anniston has been awarded one of three \$2,000-per-year scholarships by the State Board of Dental Scholarship Awards. The awards are renewal for four years providing the student remains in the top 20 percent of his class. John is a sophomore at the University of Alabama School of Dentistry in Birmingham. . . .

Rodney W. Byard and his wife, Rebecca Page '68, have moved to Atlanta where Rodney has been promoted to plant engineer with Union Camp's Atlanta container plant. Rebecca will teach eighth grade math next year at Riverdale Jr. High. . . .

Saralu Phillippi is stationed at the Miami International Airport as a stewardess with Delta Air Lines. . . .

Evelyn Lawrence Mauldin will be living in Prattville and substitute teaching while her husband, Capt. Jerry Mauldin, is assigned to Vietnam. They have been at Ft. Benning during the past year. . . .

Edward Daniel Garvin is now a salesman and designer with Container Corp. of America in Albany, Ga. He and his wife,

Joy, have one son, Edward, 16 months. . . . Charles H. White is ramp service agent with Delta Air Lines at the Atlanta Airport.

Sarah Foster Sikes is science teacher and librarian at Wilcox County High in Camden. . . . Robert E. Cochran is a systems analyst with McDonnell-Douglas Aircraft in St. Louis, Mo. . . .

Denevia Stiles Rearden is teaching at St. Pius High School in Atlanta while taking courses toward a master's at Emory University. Her husband, Roy, is an underwriter with Life Insurance of Georgia and attends Georgia State. . . .

Robert M. McIndoe, civil engineer with U.S. Steel at Fairfield. . . .

Ovid Daniel Ricketson was released from the Army in March and was recently promoted to manager of packaging, engineering and design with Ampex in Opelika. His wife, Carolyn Sue Brock '67, is working on an M.S. in family and child development at Auburn and teaching at Jordan Vocational High in Columbus, Ga. They live in Phenix City. . . .

Mr. and Mrs. Robert Walton Motley (Carol Kuntze) now live in Houston, Tex. Robert is a claims adjuster with Allstate Insurance and Carol is a secretary for M & W Enterprises, a private investment firm. . . .

Ronald L. Riggles is now an industrial engineer with United Parcel Service, Carolinas District, in Charlotte, N.C. . . . Mr. and Mrs. Joseph A. Sapia (Mary Elizabeth Graves) live in Birmingham. He is with Miller and Norrell, Consulting Engineers, and attending graduate school at night at the University of Alabama in Birmingham. She is a tax auditor with Internal Revenue and attending graduate school at Samford University at night. . . .

Dennis N. Tunell is assistant coach and P.E. teacher at Douglas High in Montezuma, Ga. . . . Joanne Scott Farris is with Birmingham Trust National Bank. . . . Gary Alton Ryle is an electronics engineer with Naval Ordnance in Louisville, Ky. . . .

Wanda Joyce Freeman Coffman teaches in Montgomery. . . . Mrs. Julia Diane Keith Blanco is with the counseling staff at Virginia Tech in Blacksburg, Va. . . .

Grady O. Lanier entered Cumberland Law School at Samford University in the fall. . . .

WITH THE ARMED FORCES: Ronald W. Haney is in the Air Force stationed in Anchorage, Alaska. . . . 2/Lt. William H. Baker has graduated from navigator training at Mather AFB, Calif. He is still at Mather training as an electronic warfare officer. . . .

Lt. James L. Fillmer is stationed in San Diego, Calif. . . . Lt. Bobby J. Roberson is training supervisor of the Vulcan Branch of the Army Missile and Munitions Center and School at Redstone Arsenal, Ala. . . .

2/Lt. John David Wolsoncroft is assigned with the Army at the 6th Maintenance Battalion in Kaiserslautern, Germany. His wife is Lynn Welsh. . . . Lt. Glynn P. Sadler, stationed in Charleston, S.C. . . .

2/Lt. Harry B. Gibb was commissioned July 17 upon graduation from the Army Engineer Officer Candidate School at Ft. Belvoir, Va. . . .

Pvt. Andrew W. Denton, Jr., is stationed at Ft. Sill, Okla. . . . Joe A. Fortner and William G. Beemer attended Army Reserve Officer Training Corps' advanced summer camp at Ft. Bragg, N.C. during the summer. . . .

2/Lt. Herbert C. Kyter, II, is assigned to Loring AFB, Me., for flying duty after graduation from pilot school at Reese AFB, Tex. . . . 2/Lt. Duane Alan Newby is stationed at Ft. Benning, Ga. . . .

2/Lt. Stephen G. Boozer, assigned to Laughlin AFB, Tex., for pilot training. . . . 2/Lt. Thomas William Best, auditor at March AFB, Calif. . . .

2/Lt. Michael L. Menk, assigned to Altus AFB, Okla. . . . 1/Lt. Charles L. Dean is stationed in Vietnam. . . . Am. John F. Turrittin, English language instructor at Nha Trang, Vietnam. . . .

Richard I. Farrell is assigned to Vietnam as assignment clerk

Five hundred people attended the **MONTGOMERY AUBURN CLUB** barbecue on Aug. 21, and heard Coach Ralph Jordan speak. New officers elected are: Bolling Starke '60, president; Clarence H. Cook, Jr., '42, vice president; David W. Thames '54, vice president; Tom D. Luncford, Sr., secretary; and Francis (Pee Wee) Hereford '27, treasurer.

The **COLUMBUS, GA., AUBURN CLUB** met on Aug. 13. Coach Ralph Jordan and Associate Alumni Secretary Buck Bradberry spoke at the barbecue. New officers for the club are: Dennis Calhoun '53, president; Walter J. Wright, Jr., '47, vice president; Don Hunter, Jr., '40, re-elected secretary-treasurer.

The **BARBOUR COUNTY AUBURN CLUB** met on Aug. 15 and elected new officers and directors. They are: W. Mack Price '55, president; Henry B. Gray, III, '54, vice president; Billy V. Houston '64, secretary-treasurer. Board of directors are: Clarence T. Milldrum, Jr., '53; Robert R. Lockwood; W. Edward Richardson '47; Robert E. Scarborough '51; W. Douglas Stickland '68; and S. Boyd Whigham '59.

The **MORGAN-LIMESTONE COUNTIES AUBURN CLUB** met on Aug. 20 to hear Dr. Floyd Vallery and Coach Paul Davis. New officers for the coming year are: Fred W. Osborn, Jr., '53, president; Denton Cole '52, vice president; Fred Marin '55, vice president; Robert D. Stevens '49, vice president; Ed. N. Price '27, treasurer; and Mrs. Gordon Mummert (Mary Kay Schmidt '56), secretary.

ATLANTA AUBURN CLUB will hold their annual Wreck Tech Party on Wednesday night, Oct. 14. For reservations and more information call Don Latham '58 at 529-6806.

Alumni In The News—

Peters Evans

J. Elbert Peters '58 has been elected chairman of the Madison County Republican Executive Committee. Peters and his wife, Melba, have two children—Jimmy, 10, and Carol, 7. The Peters family lives in Huntsville.

Charles H. Evans '58 has been elected "Boss of the Year" by the Fort Walton Beach, Fla. chapter of the National Secretaries Association. Evans is a Certified Public Accountant and has been the City Clerk-Finance Director for the City of Fort Walton Beach since 1961.

Atlanta Fans Can See Shug Show

Auburn alumni and many "War Eagle" fans in the Atlanta area can watch their favorite football team each week-end this fall on Channel 17 in Atlanta.

The independent station owned by Turner Communications Corp. has arranged to air the Auburn football highlights films, better known as the "Shug Jordan Show." Coach Jordan narrates and comments on the play-by-play of the previous day's game each Sunday night from 8 to 9.

The Pursuit Of Learning Is Work, In And Out Of Class

Hospital Orderly—

Job Is Learning Experience

Kent Van Cleave works as an orderly at the Lee County Hospital because he likes the work: "I get to meet people and I get to learn about them. This job is a learning experience. Most jobs I've had I've taken for the learning experience as well as the money."

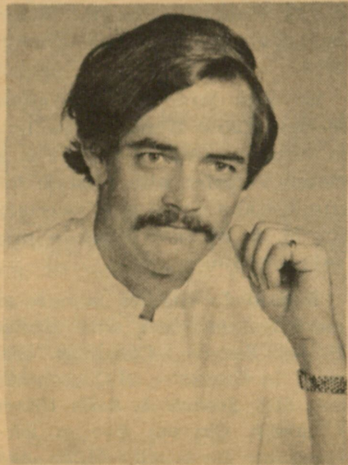

The money also helps Kent. "My father pays my tuition, I pay everything else. I'm going to be married in September, and my fiancée is working this summer to help out." As well as having to pay for his education and save for his marriage, Kent has a "family" of two kittens to support. The kittens are a mixture of white and black colors, "the one which is mostly black I call Salt and the one which is mostly white is Pepper."

Kent worked full time at the hospital and carried an 18 hour quarter load in summer school. "Work hurts my studies, but not too much. I'm not really worried about my grades, the Navy will get me when I graduate. I'll have some advantage seeking jobs when I come out of the Navy. I work my study hours around my work at the hospital. How much I study depends on how pressing a subject is, and when I'm off work, I study some at the hospital when we're not real busy, but usually we're real busy."

Kent has held several other jobs while at Auburn, both as a

student and as a summer employee. "I drove the truck for Big Mama's Restaurant once, and I worked in the Tiger Recreation Room." (The new pool table and ping pong table area of the Union Building.) During summer vacations, he has sold encyclopedias and petroleum products, and worked for an employment agency, "going on a new job every two or three days."

"Work has definitely been helpful to me. I don't know if everyone should work. It depends on a person's personal need and preference. Summer jobs for three months a year help a person gain valuable experience, you learn a lot about human nature and business operations."

KENT VAN CLEAVE

Post Office Job and School—

'I Don't See How I Did It'

"Looking back now, I don't see how I did it," says Michael Miller, talking of these past four years spent working and studying. Nancy, Mike's wife, graduated in August with a degree in home economics, and Mike will graduate in civil engineering in December. Both the Millers plan to attend graduate school at Auburn.

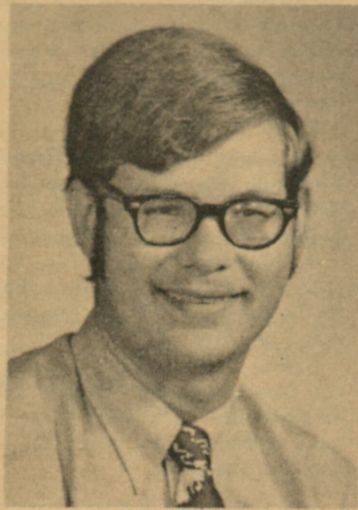

Originally from Evergreen, Mike and Nancy saved for this time at Auburn, and with Mike's salary here and his G.I. Bill, they have managed. Mike, who is 27, worked two years at the Post Office while attending Jeff Davis Junior College. Since

coming to Auburn in 1968, he has worked at the Post Office here, and also in the mailing room at the alumni office. Both jobs took about 30 hours a week.

This summer he was surprised to find how much working did affect his grades. Taking a leave of absence from the Post Office, Mike concentrated on nothing but civil engineering and his grade point average went from 1.53 to 2.74. "I know working didn't affect my learning, but it did keep me from doing that extra bit it takes to pull a grade up." Now working in research with a professor in civil engineering, Mike spends most of his time reading. He can set his own

MICHAEL MILLER

MARK STEVENS

Meeting Girls, A Job Advantage For Mark Stevens

"In the summers I get to meet a lot of girls, a decided advantage of my work," says Mark Stevens, night clerk at the University Motor Lodge. "Freshmen come for pre-college counseling, so I already know many of them before they enter in the fall." Getting acquainted with different kinds of people is particularly enjoyable for Mark. He meets people from all over the world who come to seminars and conferences at Auburn University, and alumni who return for football games in the fall.

Employed for the past 15 months, he works as night clerk and also balances the books each morning before he leaves for classes. The job presents no special difficulties for him, except for loss of sleep. Mark, who is 20 years old and from Auburn, worked during the summers of his junior and senior years in high school. Before this job at the motel he worked at Auburn Blueprinting and in the Auburn Agronomy and Soils Department. Independence is Mark's main benefit from working. He owns a trailer and, except for his tuition, supports himself.

Though he does lose sleep, Mark says his work does not interfere with his studying. A junior in business, he carries a full load each quarter and feels his work is definitely an advantage to his education. "Working at a business, I learn so much more than just reading about it in books. I get the practical experience also." After graduation he is interested in becoming either a guidance counselor or job consultant.

hours, and budget his time more conveniently.

The experience was valuable, however. Mike feels himself better disciplined, for one thing. "I knew when I had a test coming up I had to be ready beforehand. I couldn't wait until the last few days to study."

Co-Op Job —

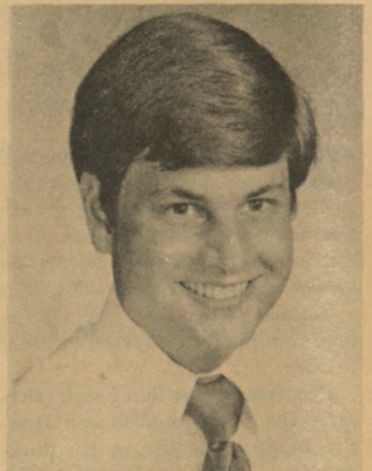

Helps Him Decide On Career

Dan Bush, not really sure when he started to school that he wanted a career in engineering, found his proper course of study after working in the co-operative program. A junior in industrial engineering, and a co-op student for one and one-half years, he works in the winter and summer, and goes to school in the fall and spring. In combining academic study at Auburn, with industrial experience at the Alabama Power Company, he receives valuable training. Dan says, "I acquire not only technical knowledge, but I can apply this knowledge in real job situations."

His work with the power company is varied and challenging. Assigned jobs of improving existing power distribution operating systems, and of designing new system facilities, he makes field surveys to determine the needs, and plans the procedure of each specific assignment. These include: location of job site, materials needed, job cost, and estimated revenue from the customers. He assists the other engineers in larger jobs and, at times, handles emergency tele-

phone trouble calls. He is secretary of the Auburn District Safety Committee.

Dan, who is 21 years old, and from Auburn, is an active participant in campus activities. He is past sports editor of the *Glomerata*, member of AIEE, member of Squires honorary, secretary of Lambda Chi Alpha Fraternity, and he will represent his fraternity at the 1970 International General Assembly this September.

DAN BUSH

In Dorm Cafeteria—

'Get To Know Some Nice People'

Carl Warren has been involved in money-making enterprises practically all his life. He started out raising rabbits as a small boy and then swapped his rabbits for chickens. Next he tried growing hamsters and although that was profitable for a while he quit when too much competition began to cut in on his profit.

His next job was that traditional avenue of making money and learning responsibility—the paper route in his home town of Phenix City.

Midway through high school, however, he decided to take a vacation from work for a year. Benevolently, however, he did contribute his talents to selling candy for the school—and did so well he won a TV set. Eventually, however, the easy life of not working became too boring so Carl went to work at the Krystal in Columbus.

Working at the Krystal throughout his senior year in high school he saved enough money so that with a government loan he managed to pay for his first five quarters of school at Auburn without working.

But eventually he began working, here, too. He works 20-25 hours a week in the Magnolia Dormitory cafeteria. The work he says "isn't much, but you get to know some nice people."

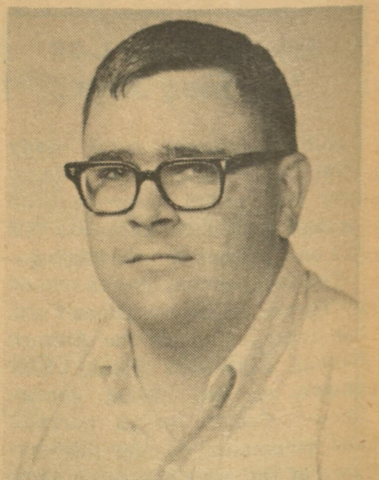

His philosophy about being a working student is: "I like work. It helps to like it when you need it."

This summer quarter, Carl was student supervisor, which technically means he was the boss, seeing that the other students

were doing their jobs and that the food was on the line when it was needed, and that enough people were peeling potatoes or washing dishes or whatever. In Carl's words, "there's not much bossing to it. The title really means that when everybody else is gone, I get to stay around and lock up the doors."

Because of his love for animals, Carl started out at Auburn in pre-veterinary medicine, but one course involving dissecting convinced him that he preferred his animals alive and healthy so he switched curricula. He is now a journalism major getting some practical experience writing for the *Alumnews* as a journalism workshop student.

With a minor in radio-TV and an interest in newswriting, Carl plans to stay around Alabama and Georgia working with radio or TV station for a while until he gets his loan repaid which along with his work helps him get through school.

CARL WARREN

THE AUBURN ALUMNEWS

ALUMNALITIES—Continued

with the Army Engineers. . . . **Pat L. Williamson** is in pharmaceutical training with the Army at Ft. Sam Houston, Tex. 2/Lt. **William B. The Pursuit of Learning—

'Work Can Be Asset'

Mark Gibson finds that his job with the University Relations Office is giving him valuable experience. Mark, a senior in journalism, says "I hope to go into public relations work, and this job is related to what I want to do when I graduate. A lot of my work is concentrated in radio and television. I'm responsible for some 16mm camera work and some local radio and ETV broadcasts."

This summer, Mark is working 40 hours and taking a five hour course. This fall, however, Mark will take 19 hours, including band, and "the job will revert to student status, I will be able to get 20 hours of work if I get a good schedule."

Mark is married and will be a father in January. "Of course I want a boy, but I've decided that it's going to be a girl. Now if it's a boy, I'll be surprised. I guess I'll have to settle down some, being a father."

"Taking just five hours this quarter, I don't see how work can hamper my studies. Since I plan to do similar work after I graduate, this job is definitely a help. I don't know about work for all students. If it is related to your course of study, work

MARRIED: **Barbara Anne Moore '70** to **Hurdie Rodolph Broach** in Marion on Sept. 6. He is with Eastman Chemical Products, Inc. in Kingsport, Tenn.

Osborne Bill Deyo, Jr., civil engineer with the Federal Highway Administration's Bureau of Public Roads in Springfield, Ill. . . . **Charles Cope**, field salesman with The Trane Co. in La Crosse, Wis. . . . **Foster Wright**, veterinarian with University Blvd. Animal Hospital in Jacksonville, Fla. . . .

MARK GIBSON

Biology Senior—

Sports, Study, And Work

John Cole, a graduating senior in biology, works at two jobs. John works because he needs the money to pay for school. His jobs are as a counselor at Magnolia Dormitory and as a food server in the dormitory cafeteria. Together, he works 30 hours a week at the jobs and carries a 20 hour course load.

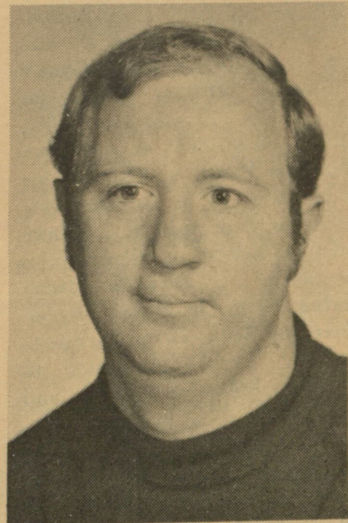

John has worked in the cafeteria three quarters and as a counselor for two quarters.

"Working two jobs does not interfere with my studying, because at the dining hall I work during meal times and the work is spread throughout the day. As a counselor I have to be on the floor at night and keep order, so I can study then. I don't think I would study more if I did not work."

Working in this manner allows John to participate in intramural sports, which is one of his favorite pastimes. "I play on the dormitory softball team this

summer, and I like to play basketball at night with some of the boys in the hall."

After graduation, John will work as a teacher in Cuthbert, Ga., but hopes to "work at a job doing research someday."

JOHN COLE

'You Learn About Yourself'

Thomas Sorrow believes that students should work because "you learn a lot through personal contacts with people. You learn about yourself, also."

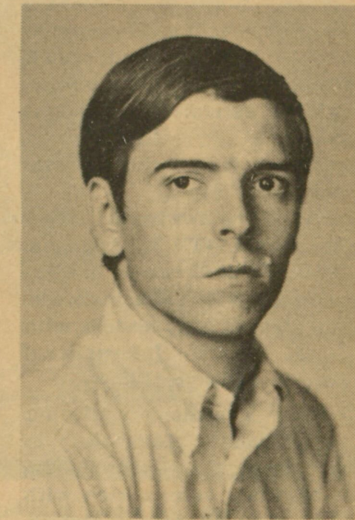

Tom, a junior in accounting, works at the Johnston and Malone Bookstore. He works a 30-35 hour week and is taking 18 class hours.

As well as helping him learn about himself and others, Tom's job helps him get through school. "I supply the bulk of the money for my education. Part of my money is supplied by a loan from the Dallas County Scholarship Foundation, but I earn most of it myself."

"I can't say that working doesn't affect my studying, but as a whole, I can work around it. Some days, though, I'm too tired to study."

Although Tom does not feel

that he would devote more time to study if he did not work, "I don't have enough time for my hobbies—fishing, hunting, and camping."

THOMAS SORROW
